THE TRUE MOTHER'S DESIRE.

The desire of every mother is health, strength and growth for her babe. All these grand conditions may be secured for the little one, if it is properly fed on nourishing food. Mothers who feed their little ones on Lactated Food are the most happy in Canada. They proudly see their darlings increasing in flesh, bone and muscle; they also note with joy that they sleep well and escape the common ailments which cause so much misery and danger.

Lactated Food is one of the grandest blessings ever given to the infants and young children of our country. Try it, mother, if your baby is not progressing well with other food.

Weiler Bros. have received their first fall shipment of "Crossley's" fine grade Carpets, and the public are invited to inspect same.*

Victoria Illustrated
A neat and lasting souvenir; just the thing for tourists. For sale at the COLONIST office, M. W. Waitt & Co's, and Kerr & Begg's. u1

CABLE NEWS.

The New Home Secretary Adopts a New Policy Relating to Irish Prisoners.

Affairs in Uganda Laid Before Lord Rosebery—Agitation Against the British in Egypt.

Trade Relations Between Great Britain and the United States Discussed.

Against the British.

CAIRO, Sept. 23.—The leading native journal El Abram, has published a bitter article against Great Britain and her Egyptian policy, and urged the Khedive to expel the British intruders.

Suicide of a Professor.

BERLIN, Sept. 23—Charles Birnbaum, formerly director of the Leipsic Agricultural College and a regular lecturer on agriculture in the Leipsic University tried to kill himself yesterday because he was penniless and without employment. He had been without food for two days. His loss of his professorial chair in Leipsic was due to his connection with financial transactions of a doubtful character.

Davitt Passed Over.

DUBLIN, Sept. 23.—The viceroy, Lord Houghton, who made the suggestion of Michael Davitt, has appointed Austin Cowley, of Navan, County Meath, to the office of magistrate.

Fell Dead on the Stage.

LONDON, Sept. 23.—Mr. Maitland, an an actor, fell dead in the Prince of Wales, at Carmarthen, this evening, at the conclusion of the last scene of "The Two Orphans," depicting a deadly struggle. Mr. Maitland was the leading actor of the company, with which he was playing.

The British in Uganda.

DUBLIN, Sept. 23.—In an interview with a deputation of missionaries who visited Lord Rosebery, to argue against the withdrawal of the British from Uganda, His Lordship stated that the Government would carefully consider what would be done with Uganda, when the British East Africa Company would abandon that region at the end of the year, but that it would be impossible for the Government to think of subsidizing a company over which the Government exercised no control. The British occupation of Uganda, Lord Rosebery added, might prove a job as big as the conquest of the Soudan.

Irish Political Prisoners.

LONDON, Sept. 23.—The Irish political prisoners association have renewed their request that the Home office allow their delegates to visit the Irishmen now in confinement, expressing in their communication to Rt. Hon. Mr. Asquith, the hope that he will consider the request in the same sympathetic spirit which prompted his visit to Wales immediately after the last colliery disaster. Mr. Asquith will revise the policy of Mr. Matthews, his predecessor as Home Secretary, and will allow the delegates to visit all the prisoners, except Terence MacDermott and Thomas Callan, who say they do not wish to see any body. Letters written to the prisoners months ago by members of the Association have just been delivered by order of Mr. Asquith.

Wife Murder in Paris.

PARIS, Sept. 23.—De San Pedro, a painter living in the Passy quarter, killed his mother and mortally wounded his wife and brother-in-law last night. The killing was done in De San Pedro's home. He did not live happily with his wife, and yesterday afternoon returned home half drunk. He accused her of infidelity and finally struck her. When her brother interfered De San Pedro began shooting. His mother fell dead. His wife will die. The brother-in-law will also die. De San Pedro has been a sober and harmless fellow, and his wife's unfaithfulness is supposed to have preyed upon his mind as to unbalance it.

Carnegie's Movements.

LONDON, Sept. 23.—Andrew Carnegie and his family will go South on October 1, as the weather about Lennoch is getting too cold for enjoyment. Mr. Armistead, Mr. Gladstone's cicerone, will spend the intervening few days with Mr. Carnegie at Loch Rannoch.

The Trade Question in England.

LONDON, Sept. 23.—The Sheffield Telegraph, reviewing the condition of trade bemoans the hostile tariffs erected against England, and especially that of the United States. The Telegraph says that the Americans are equally diligent in excluding Great Britain from the American markets and in seizing other markets by making it worth their while to give up the British.

Passengers Put Ashore.

LONDON, Sept. 23.—A despatch from Queenstown states that the Cunard steamship Cephalonia, from Liverpool for Boston, put on shore at Queenstown, to-day, thirty second-class passengers, who had never been in the United States. These passengers had been taken on board at Liverpool. The officers of the Cephalonia were apprehensive that, with these people on board, the vessel might be quarantined for twenty days at New York. By order, recently, of President Harrison, 40 second cabin passengers, who had no residence in the United States, had been previously put ashore by the Cephalonia at Liverpool.

The Kaiser and the Catholics.

BERLIN, Sept. 23.—The Catholics are indignant at the refusal of the Kaiser to grant a site in the Tentoberger Square for a Catholic chapel.

A Marchioness Dead.

LONDON, Sept. 23.—The Marchioness of Abergavenny is dead. She was the daughter of Sir Harcourt John Johnston, of Sackness Hill, Yorkshire, and sister of the first Lord Derwell. She was married in 1840 to the Marquis, who survives her. They have had ten children, all living and intermarried with various leading families.

LIVERPOOL IMPROVEMENTS.

Public Opinion and Prospective Loss of Trade Forces the Authorities to Take Action.

LONDON, Sept. 23.—Liverpool men of business are greatly alarmed by the prospective transfer of the trans-Atlantic landing place to Southampton, by rumors that the Cunard and White Star lines will withdraw from Liverpool, and by the threatened competition of Milford and Bristol as British ports of arrival and departure for the trans-Atlantic steamship trade. They complain that the benefits of the trans-Atlantic trade have been hardly realized before the city is threatened with the loss of them. The conviction spreads that the Mersey Docks Board have done much by their parsimony to injure Liverpool's prospects in trade. Recently the Board proposed that the steamship companies should assist in building a deep-water landing stage for the exclusive use of passengers to and from New York. Most of the companies replied that they could leave, if called on to contribute to the execution of the plan and the matter was dropped.. Public opinion aroused by the prospect of a heavy loss of trade has now compelled the Board to revise the plan in such a form that the town if necessary will pay the whole expense. The execution of this plan will include the building of a short railway from the Canada Dock station, across the dock estate, to a stage railway connected at the new main line. It will be hardly possible to begin this work within a year, as a grant of powers from Parliament will be required.

WHAT EGAN SAYS.

The Ex-Minister to Chili Declares that He has been Altogether Misrepresented.

PANAMA (via Galveston), Sept. 23.—Mr. Patrick Egan, United States Minister to Chili, who is waiting here for a steamer to take him north, received a correspondent of the United Press to-day. Mr. Egan was not inclined to talk as he had been misrepresented, he said, in despatches sent from Valparaiso to the North American newspapers. These despatches he described as the malicious fabrications of a poisoned enemy of whose work he would have more to say after reaching New York. Mr. Egan says that he assiduously cultivated cordial relations with the present Chilian President and his Cabinet, and thus was enabled to obtain the payment of the indemnity in the Baltimore affair. An arrangement is pending, he says, for arbitration in Washington of the claims of American citizens against Chili. Some of the claims are 40 or more years old. A Santiago newspaper says that Mr. Egan was accompanied to the train by the Minister of Foreign affairs, members of the diplomatic corps, and many representatives of the United States colony. As the train left the station he was cheered repeatedly. At Lima, Callao, Guayaquil, and in this city Mr. Egan has been cordially received. He expects to return to his post in Santiago, he says, late in December.

CONTRABAND MUNITIONS OF WAR.

A Vessel Commissioned by the Venezuelan Government to Overhaul the South Portland.

NEW YORK, Sept. 23.—The World this morning says: After a good deal of trouble and hard work, General Peraza, the Venezuelan Minister, has succeeded in obtaining and arming a vessel with which to pursue and possibly capture the South Portland, which has sailed from here with arms for the Revolutionists. She is already on her way after the steamer that is causing the Venezuelan government so much uneasiness. She has a large crew mostly Venezuelans, but among them are four Irishmen, who have served in the English army as gunners. In addition to her crew, the cruiser, which is to touch at another American port, will have as passengers a number of Venezuelan officials and army officers, Carlos Bole, son of Minister Peraza and a reporter. George Carlos Castro is her commander. It is expected she will make the run to Port of Spain in less than five days.

THE PROVINCIAL SYNOD.

The Church of England of the Province of Canada and the Pan-Presbyterians.

MONTREAL, Sept. 23.—(Special.)—At the session of the Provincial Synod of the Church of England a lively debate took place on the question of whether the Synod would send a message of greeting to the Pan-Presbyterian Council, now in session. After a long discussion, it was finally decided, on motion of Rev. Dr. Langtry, of Toronto, that the prolocutor should be authorized to communicate to the Council, now assembled in Toronto, the assurance of the Synod's good will and its continued desire for the restoration of the co-operate union of all Christians.

THE CHOLERA.

U.S. Vessels Quarantined in South America—Cases Decreasing in Number.

HAMBURG, Sept. 23.—The number of fresh cholera cases to-day is 339, or 84 less than yesterday. Deaths, 144; a decrease of 15. The majority of the 2,592 patients in hospital are convalescent, and it is believed there will be a marked diminution in the cases in the next few days.

NEW YORK, Sept. 23.—The day was uneventful at quarantine. No new cases.

"Good Advice."

Now is the time for those requiring the use of spectacles or eyeglasses to give us a call, as we are selling our well selected assortment away below wholesale figures. And as we are in earnest about retiring from business at an early date, we have to sacrifice our splendid stock of jewelry etc., etc. No reasonable offer refused. Such an opportunity to make bargains in our line will not happen again. Lange & Co.

CAPITAL NOTES.

The Application for a Battalion of Highlanders in Victoria Returned for Informality.

Public Opinion Aroused by the Seizure of Victoria Sealers by the Russians.

Increase of Exports and Imports—Premier Abbott's Health—Collection of Vital Statistics.

(From Our Own Correspondent.)

OTTAWA, Sept. 23.—Adjutant-General Powell to-day received an application from Victoria citizens for permission to form a battalon of Highlanders in your city. Instead of coming direct to the Department the petition should have come through Col. Holmes with his report. The application was promptly returned to Col. Holmes, with a request that he report upon it. There will be at least two weeks' delay for this reason.

Public opinion with reference to further seizures of British Columbia sealers by the Russians has been thoroughly aroused here. All the facts which reach Hon. Mr. Tupper from Victoria are promptly cabled to the Imperial Government.

A deputation of the Medical association has interviewed Hon. Mr. Carling to urge the adoption of a new system for the collection of vital statistics. The Government is contemplating an offer to compile and publish the figures if the provinces will do the collecting.

The exports for August show an increase of $3,238,000, and the imports an increase of $3,554,000. The duty collected increased $364,000.

Premier Abbott returned to town to-day. He says he is by no means well, although he looks so. He will attend the cabinet meeting to-morrow.

Hon. Thomas Greenway, Premier of Manitoba, has arrived here to discuss immigration matters with Hon. Mr. Dewdney.

A bill for the inspection of electric light meters will be introduced by Hon. John Costigan, in parliament, next session.

KOOTENAY'S RICHES.

The Mines of the Slocan District Promise to Surpass All Expectations.

Progress Being Made at Pilot Bay and Kaslo City—Railway Surveys.

Mr. Joshua Davies returned last evening from an extensive trip to the Kootenay country, going and coming by the Northern Pacific to Spokane, thence by the Great Northern railway to Bonner's Ferry, and from there by steamboat.

"The new Great Northern road," said Mr. Davies last night to a COLONIST reporter, "is in first-class shape, and the company are running the finest kind of modern cars, both for Pullman and first and second-class passengers. Their trains leave Spokane daily, for Bonner's Ferry and points east, at 7 o'clock p.m., arriving at 11:45, and connecting with the steamers Nelson and Spokane for all points in the Kootenay country. The Great Northern will have their line to the Pacific completed in two months; President Hill was expected to arrive at Spokane in a few days.

"When I left," continued Mr. Davies, "the Kootenay river was falling very rapidly, the steamers having to lie at Galena Landing, about one and a half miles above Bonner's Ferry. The early mornings were very foggy, somewhat delaying the trip. Forest fires were raging and the smoke was so thick we could hardly see across the lake, a distance of three miles.

"During most of my stay, I was at Pilot Bay, where the Kootenay Reduction Company are erecting their smelting works, which, when finished, Mr. Farrel states, will be as complete as any on the continent. They will consist of concentrating works, smelter and refinery. The buildings now in course of erection are very massive, the frames being of 12x12 timbers. Between the frames the space is filled with brick, and the roofs are of corrugated iron, so that the structures when finished will be very solid, indeed. Their entire cost will exceed $300,000. The company had between 60 and 70 men at work when I was there. No other point in the Kootenay country will compare with Pilot Bay in the amount of money being spent. The company has engaged Mr. H. Jenks, who is one of the best qualified metallurgists on the continent. He has charge of all the works, and will continue in control when the smelter is going.

"Prof. Parkes, who has been engaged as the expert and assayist, is now on the ground, and is busily engaged in testing samples of all the ore in the country. The results, so far, go to prove that if the quantity is there, of which there seems to be little doubt, the district will be the greatest and richest on the continent. Everyone who has made an examination of the ore says that the surface showings are away ahead of anything ever found yet anywhere else on the continent, and if it should go to any depth at all, the value of the mines will be simply enormous.

"The prospects ahead fairly stagger the mining men who realize that the best veins in the world are likely to be found right in the Kootenay country. This remark especially applies to the Slocan district. Samples brought down from the mines by Mr. Byers show nothing but metal running from $100 up to hundreds of dollars worth of silver per ton. The ores are what are termed wet ores (galena).

"The people at Kaslo have given a contract for the building of a wagon road 32 miles long, at a cost of $1,150 per mile, and work had been commenced. Twenty miles of this were to be completed in 60 days. If this is done, much work can be done during the winter, and ores can be shipped to the lake. There was considerable building going on at Kaslo, where as at Pilot Bay there was every appearance of activity. The new wagon road will bring the ores of the Slocan district practically to the smelter at Pilot Bay, which, however, will not be completed much before the latter part of next year.

"Any one seeing the amount of work being done at Pilot Bay can readily understand the magnitude of it, for the preparation for smelting and the providing of transportation facilities have to go hand in hand before the country can be opened up and owners of mines realize upon their output. Heretofore the miners and everyone else in the country have been practically running on what money has been brought in by the big enterprises, such as those of the Kootenay Reduction Company, Kootenay & Columbia Railway and Navigation Company, Davies-Sayward Co., etc., but when they get the smelter in operation, the miners will be able to sell their product for spot cash, and as can be readily seen, an era of prosperity heretofore unknown will be entered upon.

"The mining men of the State of Washington," continued Mr. Davies, "have been and are now purchasing any good properties offering, the prices ranging as high as $75,000 for claims in the Slocan district. The two mines lately spoken of as being of great value are the Washington and the Blue Bird, both owned by people in Spokane and Seattle."

Asked about the Nelson and Fort Sheppard railway, Mr. Davies said the engineers were expected to complete their location survey some time in October and early next year the construction work on the road will be commenced. The Spokane Falls & Northern Railway connecting with this line at the boundary have extended their rails to Northport on the Columbia, the first train having gone up last Tuesday. There is a probability that the navigation of the Columbia will enable a weekly service to be established to Nelson. Engineers, said to be C.P.R. men, have surveyed a line from Crow's Nest Pass along the St. Mary's river westward to Crawford Bay, at the head of which they were camped when Mr. Davies was there. The line would be some 60 miles shorter than if built by the way of Goat river; it would also pass through a fine mining district; the report was, of great richness. Should it be built that way, it would probably come out near the Blue Bell mine to Pilot Bay, and cars would then have to be ferried across the lake a distance of three miles. The Reduction company's freight alone would amount to something like 100 tons per day of coal, coke and ores, and this may be one of the incentives to bring the road that way.

"There is just one thing more you might say," remarked Mr. Davies in concluding the interview. "Mr. Farrel is a man with the reputation of never having made a failure of any enterprise he had anything to do with, and is considered in the United States to be one of the most successful of the smelting men in the country. In this, his latest venture, he is not likely to make any mistake, for besides his skill he has plenty of capital at his command."

CANADIAN NEWS.

Winnipeg Has a Street Railway War—Smallpox Over at Port Arthur.

A Long Imprisonment—Estate of the Late James Trow—Body Snatching.

(Special to the COLONIST.)

James Trow's Estate.

BRANTFORD, Sept. 23.—The late James Trow, ex-M.P., left no will, and his large fortune, estimated at $300,000, will be divided among his widow, four sons and a daughter. The Ontario Government shares an amount of about $16,000.

A Veteran Merchant Dead.

HALIFAX, N.S., Sept. 23.—Daniel Cronan, the oldest merchant in Halifax, is dead, after a short illness, aged 85 years.

Stolen in the Interests of Science.

BELLEVILLE, Sept. 23.—The body of John McAdams, who died on September 11 of an advanced type of typhoid fever, was stolen from its grave, in Union Cemetery, last night.

Shot by Her Husband.

ST. JOHN, N.B., Sept. 23.—Mrs. Carr, aged 30, was shot and killed, yesterday, by her husband, near Canterbury Station. Carr says he was searching for a strange dog in the cellar, when the gun was discharged, accidentally.

Escaped From Penitentiary.

WINNIPEG, Sept. 23.—Fred Schultz escaped from Stony Mountain penitentiary last night. He was imprisoned for the robbery of Jacques' jewelry store at Calgary.

No More Smallpox.

PORT ARTHUR, Sept. 23.—The quarantine declared by Fort William, yesterday, against Port Arthur, is over. Gazely, of Port Arthur, was arrested at 10:30 a.m., today. At 11:30 the fence was taken down and the constables taken off. There are no new smallpox cases, and no danger of the disease spreading.

Killed by a Runaway.

WOODSTOCK, Ont., Sept. 23.—Mrs. Russell, of Blenheim, met with a fatal accident last night while driving home from Woodstock. She was going towards home when another team overtook her, running away, and before she could save herself they crashed into her rig. The wagon tongue struck the woman in the back and impaled her. She was carried up the road nearly half a mile when her body was tossed off by the roadside frightfully mangled.

Street Railway War.

WINNIPEG, Sept. 23.—The street railway war is beginning. One company has given notice of an injunction to stop the electric cars running on Main street.

A Twenty-Five Years Sentence.

MONCTON, Sept. 23.—"Jim" has been sentenced to 25 years imprisonment for complicity in the murder of Policeman Steadman.

Body Found.

HAMILTON, Ont., Sept. 23.—The body of Jas. McLennan, of this place, has been found in the hydraulic canal at Niagara Falls.

NEWS OF THE PROVINCE.

Boom in Kaslo—Much Needed Road Commenced—A Marriage-Proof Minister.

Mining Budget From Trail Creek and Nelson—The Fair at Duncan's.

(Special to the COLONIST.)

VANCOUVER.

VANCOUVER, Sept. 23.—James Mash, a longshoreman, was drowned off Evans' & Coleman's wharf yesterday, by slipping off the wharf while at work. The body has not been recovered. The deceased came from New Brunswick.

The steamer Rainier left to-day with two fine blocks of granite from Keefer's quarry for the base of the Seattle monument.

Two big events are down for Saturday, the quarter of a million by-law, and the lacrosse match betwen Vancouver and Victoria. Bets for and against the by-law are even.

The trolley wheel on a tram car on the New Westminster and Vancouver line burst last night. The car was packed with about 100 people, many of whom became alarmed at the sudden extinction of the lights. After a delay of a couple of hours the breakage was repaired.

C. H. Bonner, the defaulting bank clerk, was brought from Nanaimo by Chief O'Connell this morning. He is in a very disconsolate mood, and suffered terribly in the woods. He and Roome will be brought up in the police court Saturday.

The year 5,653 was celebrated by the Hebrews here yesterday.

The anti-by-law meeting at the Market Hall this evening, was very largely attended. It looked kind of blue for the by-law. Ex-Mayor Oppenheimer made a very forcible speech. Ex-M.P. William McCraney presided.

The debentures of the municipality of North Vancouver have been withdrawn from the market, and contractors on the new road from the North Arm of Burrard Inlet to Howe Sound have stopped work on the chances of getting more money. The roads and bridges are nearly completed and would have cost $5,000. The contractors have obtained about 75 per cent. in progress estimates.

NANAIMO.

NANAIMO, Sept. 23.—"Dr." Slade, spiritualist, gave an exhibition in the Opera House on Wednesday night. He promised to do certain things through spiritualism, but through some cause or other failed to do so. A prominent divine of this city says that he can do all the tricks done that night by Mr. Slade, or forfeit $100 for every trick he fails to do. Mr. Slade is now in Victoria.

The new Vancouver Coal Co. are sinking another slope near the Nanaimo River, and it may be presumed that they have not far to go before they reach coal. All the shafts are said to be in perfect condition, with abundant coal available in each one. The output for the present month will be larger than any previous month this year, and the pay roll will correspond accordingly.

The best quality of coal is being got out of the Protection Island shaft of the V. C. Co. The ship Cheney, which is loading here, takes a few hundred tons of this coal to San Francisco. The bark McNear will also take about 500 tons.

The new Presbyterian Church will be opened at Wellington next Sunday.

The case of assault against Rossie, of Wellington, in which William Rafter got seriously injured, was up in the Police Court, and was dismissed, as no evidence was produced against Rossie.

Lieut.-Col. Holmes, to-day, inspected the arms and accoutrements of the Nanaimo Infantry corps. Everything was very satisfactory.

A Chinaman employed at the E. & N. Railway depot had a narrow escape of being crushed to death between two cars; no bones were broken, but he was badly bruised.

Sailed: Ship Carrollton.

DUNCAN'S.

DUNCAN'S, Sept. 23.—A meeting of the executive committee of the Cowichan and Salt Spring Island Agricultural society was held on Wednesday last, when final arrangements were made for holding the society's show on their grounds at Duncan's on the 8th October next.

The following visitors from Victoria have been here during the week: B. W. Pearse, J. C. Prevost, A. Keast, T. Aikman, A. Philip Peacock, W. H. Routledge, W. G. Harvey and J Hyland.

The Misses Hadwen arrived from England on Wednesday to reside with their brother, G. H. Hadwen, on Quamichan lake.

KASLO CITY.

KASLO CITY, Sept. 19.—The last week has been entirely absorbed in public meetings, committee meetings and speeches, but the outcome of the whole is to be summed up in the following facts: Tenders were invited for building a 30-mile wagon road from Kaslo City through to the head of Carpenter creek, and on Thursday last the following bids for the work were opened, viz.: Marks & Co., Spokane, U.S.A., $36,000; G. B. Wright, Ainsworth, B.C., $35,500; Candler, Nelson, B.C., $35,300; Lane, Spokane, U.S.A., $33,300. Mr. Lane was awarded the contract, gave satisfactory bonds, and commenced work with all the men he could get in town, some 25 only, and the great work was carried on in earnest. Each day this strength has been reinforced, till the number of hands now count up to 85, while 200 more are being advertised for.

The contract stipulates that the road to Bear lake shall be completed within 60 days, and the entire line be finished on or before August 1, 1893. No Chinese or Italians to be employed in construction. Bonds for the performance of the contract were required in the sum of $10,000. It is specified that the contractor shall purchase all his supplies from the subscribers to the wagon-road fund.

This energetic young town is now in full bloom as usual. Push, drive and business energy characterize all the movements of the business men. Many new men are coming in and opening up business houses as soon as they can be constructed. Among these may be mentioned Mr. O. T. Stone, just from the Coast, who, after staying a few days looking the country over, decided to make Kaslo City his home, as he considers the numerous good points to be seen here are too good to be missed. He has, therefore, purchased a valuable lot in the principal part of the city, and is at the present time arranging a contract to build a handsome house and offices at once.

At the Presbyterian church, yesterday, (Sunday), the Rev. Mr. Rogers preached an eloquent sermon, administered the Sacrament to a large number of communicants of five different sects, and preached in the evening again to a large and appreciative congregation. Both the resident pastor, Rev. Mr. Martin, and Mr. Rogers express themselves as well pleased and much gratified at the encouragement they receive from this little city.

Some evidence of the popularity which Rev. Mr. Martin enjoys may be gained from this little incident: When in company with some of the leading residents here, the idea was started that if Mr. Martin would get married, the people would make him a wedding present of a house, lot and furniture; but the reverend gentleman, being a confirmed bachelor, declined to be caught in Cupid's webs by any such temptation.

Talking of marriages, we had a popular one here last week. Archie Fletcher, the pioneer hotel man of the Grand Central, gracefully took Miss Chevenie, of Nelson, to the altar at Nelson, B.C., and immediately afterwards came home to enjoy his honeymoon at Kaslo. He was met by all the boys, who gave him and his bride a kindly and respectful greeting of welcome. In the evening a grand dance was given to celebrate the advent of the first bride in Kaslo, which was well attended and broke up at 4 o'clock next morning.

The Lucky Jim mine is now being worked by three shifts. They are putting out about 12 tons of ore per day.

The Washington, Freddy Lee and Whitewater have shipped on the whole 37 tons of high grade ore, and there is now lying on the dock about 16 tons of ore from the Dardanelles mine, which assays 496 ounces of silver to the ton.

The Great Northern Railway are building a spur from the main line to Galena landing on the Kootenay river to receive and transfer all ore during the entire winter, and many other arrangements are being made by the Kaslo-Kootenay Company to keep Kaslo open all the year round, a thing which has never been attempted before.

Notices of application to Parliament have been given to incorporate an electric light and power company, also a water supply and motor company.

Our two new steamboats the Kaslo and the Ainsworth, are now in the bay, and commence daily trips to all lake points next week, when the Galena, our "old reliable," will be laid off for repairs and a well earned rest. Both the Kaslo boats tie up in the bay and make Kaslo their home.

TRAIL CREEK.

(From the Nelson Miner.)

Although the Slocan has been like a paralytic stroke to all the older camps, yet Trail Creek will, with her immense bodies of copper-gold, silver-gold-lead ores and small veins of free milling gold quartz, get there just the same. Several good finds have been made this season on both old and new locations, but we have so much ore that new finds create but a small ripple of excitement.

Two shifts have been working steadily all summer on the Centre Star, and almost all summer on the Le Roi, the tunnels in both being nearly 220 feet in length. The Le Roi tunnel is a cross-cut, and the contractors expect the ledge within 30 feet. The surface-croppings at the point where it will be cut by the tunnel are 16 feet wide, and assay $27 gold, 4 oz. silver and 7 per cent. copper. If as good where hit by the cross-cut, that will ensure reduction works in the spring.

The Centre Star has an enormous body of ore of the same nature; its size is unknown in the tunnel, but a cross cut at 60 feet in the shaft shows the ledge 18 feet wide. The Le Roi Co. invite proposals to continue their shaft, which is 80 feet deep, 120 feet more. They, as well as the Centre Star Co., would put in hoisting works and air compressors for power drills had we a wagon road, but the Le Roi for present use will put on a common-sense whim, and sink with horse power. Upon completion of the 120 feet there will be a contract let for 200 feet of drifting and probably level-running in the tunnel, which is about 500 feet west of the shaft.

Mr. D. C. Corbin has lately acquired two good prospects and expresses his determination to prospect them thoroughly, so we expect to have about 30 men working steadily this winter.

Prof. Knace is now making his third extended examination of the mines, and will probably be able to call the name of every stone on Red Mountain.

The finest free gold specimens ever found in West Kootenay are on exhibition at the Trail House from the "O. K." mine, a two months old discovery. The vein carries galena, of which a late assay gave $1250 gold, 51 oz. silver, 35 per cent. lead. There are many other claims worth describing, but life is too short to attempt to speak of all the good claims recorded here.

The supposed rich finds on the main fork of Sheep Creek have vanished into thin air; the leads show a very fine quality of magnetic iron with a large percentage of disappointment.

NELSON.

(From the Miner.)

Another strike of gold-bearing rock has been made on the Salmon river slope, this time on the west side of Hall creek.

Dugan & Hooker have begun to run a cut with a view to reaching bed-rock on their lease on 49 creek. Some difficulty has arisen over the lease of the ground above their own. Two outfits are quarrelling over it and the one has jumped it on the other.

Placer mining is being attempted on Fry creek, which rises near the headquarters of Duncan river and drains into Kootenay lake some miles above, and on the opposite side from Kaslo.

R. H. Cavill spent the earlier part of this week on the gold belt. On Sunday he was inspecting claims on Bird creek, and on Monday, accompanied by Messrs. Goepel and Davys, made an exhaustive examination of the Whitewater. Mr. Cavill is convinced that the gold belt has a great future before it. From the Poorman to the Whitewater is all a first-class gold formation, and the claims located there should turn out well when developed.

The Priest lake quartz and placer mines are not easily reached from Bonner's Ferry. Travellers take the steamer to near the mouth of Bear creek. From there there is a comparatively good pack trail into the mines. The measured distance from the river to the big quartz strike is 18 miles. The distance by trail is about 15 miles. C. E. Grove, a mining man of the Cœur d'Alenes, visited the Priest Lake country last week with John Davenport. He speaks very enthusiastically of the prospects. A rich placer strike has been made on the south fork of Boundary creek, about five miles east of the Smith lead, in the Priest Lake region. A large number of prospectors have already rushed in and located the ground. It is coarse shot gold and the ground prospects very rich. The strike is about 14 miles from the Kootenay river.

Owing to the cost of keeping the line in repair, the telephone company has decided to change its line between Balfour and Ainsworth from the trail, which runs through timber, to the lake shore, where the wire will be in no danger from fires or falling timber. When the change is made, the line will probably be extended to Kaslo.

" Badger	"	Genoa.
" Yosemite	"	Vancouver.
" City of Kingston	"	Port Townsend.
" R. P. Rithet	"	Westminster.

Thursday night's gale had the desired result of bringing four more sealing schooners into port yesterday morning. They are the Sadie Turpel, Walter L. Rich, Mascot and Walter Earle. The first named, Captain Currie, brought 244 skins as her Copper Island catch, which when added to 451 coast skins, makes her total catch 695 for the season. While away the Turpel was very unfortunate. Her cook, a man named Wm. Firth, was buried at sea on the second of May last. He was a native of England, and was last year employed as steward on the steamer Sehome. His death was caused by erysipelas, and his only surviving relative is a brother, who shipped as one of the crew on the sealing schooner Fawn. Another misfortune which befel the Turpel was in a hurricane, on the way home, in which she had five boats smashed in and part of her bulwarks carried away. She reports having seen no Russian cruisers during her stay around the Copper Island coast, where she fell in with several schooners, all of which have before been reported.

The Mascot's cruise was a rather uneventful one. She got 119 skins on the Russian side, while her coast catch only amounted to 335. Shortly before a start for home was made, her rudder played out, and a jury rudder was put in. Capt. Griffith, who was in command, reports having only seen one schooner on the Russian coast, the May Belle, which had, when spoken, 100 skins on board.

The total catch of the Walter L. Rich amounts to over 1,700 skins, but only 520 of these were caught off Copper Island. While gone from Victoria she had no mishaps of any kind save one, wherein a boat's crew, consisting of hunter and two men, had a narrow escape from drowning. The boat was out sealing when she suddenly capsized, throwing all hands out. Fortunately, however, the look-out man on the schooner saw them in time and another boat was soon sent to their rescue.

The Walter Earle, Capt. Magneson, brought 541 more skins from the Russian side, thus making her total catch 1,866, for the season. Her trip was barren of news.

The British ship Persian Empire, 1,532 tons, Capt. Hay, arrived in the Royal Roads early yesterday morning, 59 days out from Callao. She brings no cargo, and will remain at anchor until she receives a charter. When two days out from Callao, the Empire spoke an Italian bark bound for that port. She was 70 days out from a point about 700 miles north of Callao, and during that time had encountered many hardships. The crew had run short of provisions, and owing to the captain breaking his chronometer shortly after his departure from port, the vessel had gone a long way out of her course, having encountered very bad weather. When the Empire was sighted she was gladly hailed by the foreigner, whose skipper was not long in explaining his position to Capt. Hay. A boat was then lowered from the bark and a temporary supply of stores was given the stranger, who after gaining some information as to his location, proceeded on his way, having first heartily thanked Capt. Hay.

While the winter lasts the Alaskan steamships will not call at Victoria unless there is freight to be shipped north. On this account the steamship City of Topeka, which sails this morning from Port Townsend, will not come here.

The Chilian ship Lake Leman, 1,035 tons, completed her lumber cargo for Valparaiso at the Moodyville sawmill this week. Her cargo, which consists of 807,110 feet of rough lumber and 14,138 laths, is valued at $6,610.

Tug Badger, with a scow containing lumber and a quantity of other building material, went down to Peddar bay yesterday afternoon.

Steamer Danube is now several days overdue from the north.

FROM JAPAN AND CHINA.

Floods but no Loss of Life—Litigation on Account of Taxes.

SAN FRANCISCO, Sept. 22.—The steamship Belgic arrived this morning from China and Japan with the following news: Heavy rains in the province of Shantung in July swelled the Yellow and Chi Mo rivers to a dangerous point, and seven breaks occurred in the Grand canal between Tsining Fu and Tientsin. Part of Ku Cheng district was wholly under water. No loss of life is reported. Governor Tetsunosuke, of Tokio, having issued in June last, a notification relative to the collection of taxes on business houses, which was considered unjust in its methods, Marquis Ikoda, director of the Fifteenth National bank, and 75 other bankers, have instituted a suit against the Governor in the administrative court.

PAN-PRESBYTERIAN ASSEMBLY.

What the Great Gathering in Toronto Represents—Congratulations to the Rev. Dr. Blaikie.

TORONTO, Sept. 23.—In the Pan-Presbyterian Assembly a resolution was adopted of congratulation to Dr. Blaikie on his jubilee in the ministry, the close of his fiftieth anniversary being in September next. It was decided by the council to have not only Western and Eastern sections as at present, but a Southern section representing Australia. The object is to facilitate the work of the council in Australia and the islands of the South Pacific. The papers and addresses yesterday had to do with the Reformation and its effects, and the present condition of the churches in relation to the societies in which they exist. The report on statistics showed that the total number of Presbyterian church adherents throughout the world numbered about twenty millions. Dr. Matthews, general secretary, in presenting the report, said that this Council represented a hundred times as many Christians as were represented in the great councils of Nice, Dort and Westminster, great as they were. To-day there was a reception of the delegates at Government House. The morning session was devoted entirely to the discussion of foreign missions. At last night's session, the subject under consideration was "Our Reformed and Presbyterian Churches." The institutions were ably represented by Revs. V. Van Horne and J. M. Gibson, D.D., London, England, Rev. E. Von Slyck, D. D., Cahill, N. Y., and Rev. J. R. Eschbach, D.D., Frederick City, Maryland.

SENT BACK BY THE SULTAN.

Why the Students Who Had Arrived in Constantinople Were Not Allowed to Stay.

PARIS, Sept. 23.—The arrest in Constantinople and the deportation of two thousand students is a result of the cholera scare in that city. The students of theology and law arrived in the city in hordes last week for their examinations; but in view of the prevalence of cholera the Sultan ordered an inquiry as to their health and the condition of the districts from which they came. The students were found to be destitute and dirty. They were crowded together in their lodgings like cattle, and there was every danger of infection, as many came from places where cholera had prevailed. The Sultan, therefore, ordered that 2,000 of those who had reached the military age be started homeward on special boats.

THE SLOCAN COUNTRY.

Wonderful Development Being Made—Some Interesting Statements About the Mines.

The Seattle Post-Intelligencer says: Dr. E. C. Kilbourne has returned from a trip to the Slocan mining district, where he went to look after his properties. He said yesterday:

"I went in by the Spokane Falls & Northern railway to Little Dalles, by steamer up the Columbia river and the Arrow lakes to Nakusp, B. C., twenty miles on a cayuse to Slocan lake, nine miles by row-boat to New Denver on the lake, then on a pony to the mines. Returning, I rode twenty miles on a cayuse to Kaslo, on Kootenay lake, by steamer to Bonner's Ferry, then by the Great Northern to Spokane. The Great Northern has a fine roadbed, and I was surprised at the smoothness of the line. I never saw such prospects as there are at Slocan. There are hundreds of tons in sight. The Washington has a forty-foot tunnel and eighty tons of ore on the dump, which will average 150 ounces of silver and 50 per cent. lead. The Bonanza King, one of the first great finds, has a vein which crops out over six claims and is 9,000 feet long. It has a tunnel in over 100 feet and has about 100 tons of ore on the dump, which will probably average 250 ounces of silver. Most of it is carbonates with not much lead, but there is one pile running about 50 per cent. lead. The assays run all the way from 140 ounces to 2,100 ounces of silver. The Lucky Jim has a 35-foot tunnel and a 35-foot crosscut. We have only saved the lead ore, of which there is about 120 tons on the dump, running from 76 to 144 ounces and averaging 90 ounces, with 50 per cent. lead. Wardner's Freddy Lee is shipping ore. He has got out 100 tons and is sending it by mule to Arrow lake for shipment to a smelter, having just bought seventy-five mules for the purpose. His ore runs about 200 ounces of silver and 50 per cent. lead. The Dardanelles is getting out a sample shipment of ten tons, averaging 400 ounces of silver and 50 per cent. lead. The Whitewater has made a sample shipment of ten tons, assaying 146 ounces of silver. The Wellington is making a great showing, but is not shipping. Burke & Garrison are doing some development on the Blue Bird. A contract has just been let for thirty miles of road from Kaslo to Cody creek, near the mines, which is to be completed to the Lucky Jim, the nearest claim, by December 1. At present they are paying $45 a ton freight to the lake, but the completion of the road will reduce this to $5 to $10 to Kaslo, and from there the freight is $8 to any of the smelters. The Spokane Falls & Northern railway was about finished to Northport, ten miles south of the boundary, when I passed through, and the survey for the Nelson & Fort Sheppard is finished, so that it is ready for construction next year.

What Stronger Proof

Is needed of the merit of Hood's Sarsaparilla than the hundreds of letters continually coming in telling of marvelous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

AUCTION SALE
—OF—
VALUABLE - PROPERTY
In Victoria District.

There will be sold on Tuesday, the 4th day of October, 1892, at 12 o'clock noon, at the auction rooms of Joshua Davies, 80 Wharf street, in City of Victoria, by virtue of a power of sale contained in a certain Indenture of Mortgage which will be produced at the sale, the following property: All that parcel or tract of land and premises situate, lying and being in the District of Victoria, in the Province of British Columbia, containing eleven and sixty-eight one hundreth (11.68) acres, or thereabouts, and more particularly described and colored red on the plan annexed to a certain Indenture of Conveyance, dated the 18th day of August, 1891, and made between Alexis Casanave, of the one part, and John Sylvester Bowker, the younger, and Frederick Waugh Smith, of the other part, and which parcel of land forms part of Lot six (6), Subdivisions four (4) and twelve (12) of Sections sixty-one (61) and sixty-nine (69), conveyed to the said Alexis Casanave originally by indenture dated the 27th day of December, A.D. 1888, and registered on the 7th day of February, A.D. 1890, at Vol. II, page 331, No. 844a, of Absolute Fees Book.

The said land is enclosed by a board fence, but there are no buildings thereon.

That the sum of Five Thousand One Hundred and Thirty Dollars and upwards is in arrears on the said mortgage, and by reason thereof, and of the provisions of the said mortgage, the Mortgagee is empowered to sell the said land, and the total sum due upon the mortgage is Nine Thousand Six Hundred and Thirty Dollars and upwards.

As payment thereof has not been made according to the tenor and effect of the proviso for payment therein contained, the said land will be offered for sale by public auction at the date, time and place aforesaid, and when sold the land and premises will be conveyed unto the purchaser or purchasers thereof.

Terms—One half cash; balance to be secured by a mortgage on the property, payable on the 22nd day of August, 1893, with interest thereon at seven per centum per annum.

For further particulars apply to

☞Where Cuts are inserted they must be ALL METAL—not mounted on Wood.

A GOOD ENTERPRISE.

What this province wants just now, more than anything else, is a larger area of available agricultural land. British Columbia does not raise enough farm produce for its own consumption. It is still a large importer of those kinds of food that could be produced from its own soil.

Clearing the forest and converting it into arable land is slow work, and work which comparatively few are willing to engage in. There are, however, large areas of what can be made the finest farming land in the province, that need only to be reclaimed to produce splendid crops of all kinds. Part of this is in the valley of the Fraser. Something has already been done towards making this land fit for cultivation, but a great deal more remains to be done.

The Sumas Reclamation Company have undertaken to drain and dyke a large area of as fine land as there is in the province. Mr. Dewdney was, in 1876, instructed by the then Commissioner of Lands and Works, the Hon. Mr. Vernon, "to make a careful survey of the lands situate between Sumas Mountain and Cheam with a view of ascertaining the practicability of dyking that portion of the district." The survey was made and the practicability of dyking it ascertained. "Settlers," Mr. Dewdney said, in his report, "would crowd into the district if the land were reclaimed, and where one house now stands there would possibly be a dozen, making it one of the most valuable and thriving in the province." The work was not done then, most probably for want of means, and the Sumas Reclamation Company has now undertaken to drain and dyke the area. They have employed Mr. P. J. Van Loben Sels, Hydraulic Engineer, and a native of Holland, and there is every probability of the work being thoroughly done. He has found the land all that it has been described to be, and the engineering difficulties are not, except in one respect, by any means formidable. The exception is this. The river has left its old channel and is washing away the bank. It has already inundated so much of the land that there is now a considerable depth of water where a house and garden were resituated some years ago. The spreading out of the river and the formation of bars have made the navigation of this part of it impossible except to boats of very light draught. The sweep of the river at this point will always be a menace to any dyke that may be made. What is required, both for the preservation of the land and the improvement of the navigation of the river, is to dredge out the old channel and to divert the stream into it. This would be beneficial from every point of view, and it would materially aid the reclamation of a very large area. An esteemed correspondent writing from the district, speaking of the encroachment of the river says:

> This is a serious danger. Not only has much valuable land been already washed away, but dykes, which only too tardily were proposed for construction, are threatened with destruction. This is a matter coming within the purview of the Dominion Government. This is already recognized, and some good work was done this spring at Miller's Landing, Sumas, under the direction of Mr. Gamble, Dominion Engineer. The breakwater has stood the test of the high water exceedingly well, and it was tested thoroughly by drift timber. If taken in time, thousands of dollars can be saved both in land and protective works. Perhaps one hundred acres of the richest land has been destroyed at Miller's Landing. The Dominion Government should order at once a thorough hydrographical survey of the Fraser between Harrison river and the Mission in order that its course may be straightened and the dykes now proposed on both sides of the river in this neighborhood can be safely proceeded with.

It does not appear to us that very much persuasion will be needed to prevail upon the Government to do what is required both to aid in the reclamation of the land and to improve the navigation of the river. It is easy to see that the province will be greatly benefited by the proposed improvements, and that by increasing its revenue-producing area the Government will, from a pecuniary point of view, be the gainer if it, without any unneccessary loss of time, make the improvements required.

WHAT GEORGEISM IS.

What we said a few days ago about Henry George's system does not please Mr. Thomas Howell, President of the Victoria Single-tax Club. We did not expect that it would. The disciples of Henry George do not like to see the doctrines they believe in placed in their true light. It is not agreeable to them to be described as either the dupes of a clever charlatan or dishonest men, who are ready, whenever they have the power, to take from its owners property that they have honestly and lawfully acquired. But this, however, is precisely what Henry George's disciples are.

Mr. Howell, in his letter, endeavors to create the impression that George's teachings are directed only against the great landholders of England and other countries. But the truth is, as is shown plainly enough in that letter, they apply to the owner of a building lot or a garden, as well as to the possessor of a townsite or the proprietor of a great estate. It is against the private ownership of land that those teachings are directed, no matter how much or how little the private person claims to own. Yet knowing this to be the case Mr. Howell has the assurance to say that our *contention* that Mr. George would deprive every landholder, both small and great, of his *property*, "is refuted by its own absurdity." What we have said about this is not arguable at all, not a "contention." It is a simple statement of fact which no man who reads Henry George's works can honestly deny. This Mr. Howell himself proves, for in the very next sentence he says: "It is this fact that makes the ownership of land the most powerful instrument of oppression and extortion that can be used by one man to enslave another." By this it is seen that it is the ownership of the land in itself, perfectly irrespective of the quantity owned, that Mr. Howell declaims against.

He makes his hostility to allowing a man whether he is a mechanic or a millionaire to have property in land more plain as he goes on. In imitation of his master, he calls the owner of land a "robber," whether that owner is a poor man who by hard work and self denial has saved enough to buy a little plot on which to build a house and make a garden, or the speculator who purchases half a county; and then to show that he is consistent, he quotes Henry George to prove that stealing land is not robbery. Like Henry George he believes himself, and would have others believe, that the commandment, "Thou shalt not steal," does not apply to land, and is not binding on large communities.

We candidly confess that we have no respect for the sophistry of communism. Men who are further advanced in the school of communism than Mr. Howell, endeavor by reasoning that bears a curious resemblance to that of Henry George, to prove that a member of society has no right to possess property of any kind, that he has scarcely a right to call the food he eats and the clothes he wears his own. According to them everything belongs to the community, nothing to the individual. The Georgeites have not gone quite as far as this, but this is where their doctrines are certain to land them. When a man begins to believe that it is no harm to take from men the land they have bought with their hard earnings or the real estate they have inherited from their fathers, he will soon learn to believe that it is right to take from his neighbors, property of all kinds.

Mr. Howell, we presume, would not advocate taking from his neighbors their watches or their carriages or their expensive furniture without paying for them. Yet a man who has purchased a building lot or a farm has quite as good a right to it as he has to his watch or his carriage or his piano; and it would take more than Henry George's sophistry to prove to him that the community has the right to take from him his land, but it has no right to take from him his watch or his carriage or his piano. His land most likely cost him more than all the rest of his belongings put together, and he prizes it more highly.

Where, we ask, did Henry George get the warrant to make a distinction between property in land and property in other things? In this country, at any rate, the land is as much the fruit of a man's toil as anything else that he owns, and yet Mr. Howell's master teaches that it is the duty of the State to take from all owners of land their property, without giving them a single cent by way of compensation. What is this but plain, undisguised robbery? How can a man who really believes that the commandment "Thou shalt not steal" is of Divine origin, and one which all men everywhere are bound to obey, accept a system of which wholesale robbery is the corner stone? For our part, we cannot understand how he can.

Mr. Howell seems to think that the number of those who accept a principle is a proof of its soundness. We take exception to this view. We do not believe that when ten million men believe a lie it becomes the truth, or that the acceptance of a dishonest system by a hundred millions will make it honest. The number of those who believe George's doctrines, and are prepared, as soon as the opportunity offers, to rob the owners of land of their property, does not make those doctrines one whit sounder in our estimation.

PHILOSOPHICAL.

It is hard not to admire the philosophy with which some of the American newspapers regard the exercise of sovereign jurisdiction over the west side of Behring Sea by the Russians. That American vessels are seized and United States citizens deprived of their freedom gives them no concern whatever. The San Francisco Examiner of the 19th says:

> Russia is guarding her waters against seal poaching in a most effective manner. Russia has not bothered about any *modus vivendi* with Great Britain, but the cruisers are patrolling the track of the seals from Carroll's straits to the division line in the sea, and as far north as the animals can go. Four more schooners are reported seized and confiscated and their crews put aboard an American bark. These are harsh measures, but nothing but harsh measures will preserve the seals from destruction.

It will be observed that the Examiner does not say that an American vessel was among those confiscated, and that Americans were among the men that were deprived of their liberty. The outrage would not be taken so philosophically if a British ship, no matter how good the reason, had made the seizures and captured the men. But then there are no Russophobist voters in the States to humor and propitiate.

"I would like to sound the praise of Hood's Sarsaparilla over the entire universe," writes Mrs. Longenecker of Union Deposit, Penn.

EDUCATIONAL.

Victoria Ladies' College
BELCHER STREET, VICTORIA.

The School lately conducted by the Misses Kitto at 234 Fort street will now be carried on under the name of VICTORIA LADIES' COLLEGE, at the above address, as owing to the increasing number of pupils it has become necessary to provide larger and more suitable premises.

A limited number of boarders will be taken.

The premises are central and very retired, standing in over an acre of land.

The Household and Boarding arrangements will be under the management of Mrs. Kitto.

The teaching, as heretofore, will be conducted on the plan of an English High School.

The Principal, MISS KITTO, has had considerable experience in educational work, having qualified herself as a teacher at the Cheltenham Ladies' College, England, and holds certificates from the University of Cambridge, including the special diploma for efficiency in teaching.

Arrangements will be made for ladies not attending the College to join any special class.

The Autumn Term begins September 14th.

For terms and particulars apply to the Principal,

MISS KITTO,
157 Menzies St., up to Aug. 20th.
VICTORIA LADIES' COLLEGE,
ap20 Belcher St., after that date.

THE CITY.

Busy Bees.

The Busy Bees of St. John's church will meet for work this afternoon, at 2 o'clock, in the schoolhouse, Herald street.

Meets Next Week.

The meeting of the Stadacona Mining Company, which was to have been held this week, has been adjourned until the 29th inst.

Promotion Awaiting Him.

It is understood that, upon his arrival in France, Rear-Admiral Parrayon will be promoted to fill a vacancy created by death in the ranks of the Vice-Admirals of the Republic.

Admitted to the Bar.

Mr. Robert Cassidy was presented to the Divisional Court, at its sitting yesterday, by Hon. C. E. Pooley, Q.C., as having been admitted to practice as a barrister in British Columbia.

Damages Wanted.

An action for malicious prosecution and $10,000 damages has been taken in the Supreme Court by W. H. Routledge against Thomas J. Ridehalgh. The suit arises out of the recent police court case in which Routledge was defendant and Ridehalgh complainant.

Again Remanded.

The case of Ah Hing, charged with aggravated assault, committed on one Ah Mee, came up again in the police court yesterday morning. Ah Mee began to give his testimony, but broke down and began to show signs of hysterics. After a liberal dose of water had failed to bring him round, the case was again remanded, to the 27th.

A Beautiful Window.

The young ladies of St. Andrew's R. C. Cathedral have presented that institution with a stained glass window representing the assumption of the Blessed Virgin. The window has arrived and will be placed in position near the Lady's altar. It is a fine specimen of what can be accomplished by an artist in colored glass. The cost was nearly $600.

Sunday's Programme.

St. Andrew's R. C. pro-cathedral will be crowded to-morrow morning when the band of the French flagship Dubourdieu will play the following music:—

Marche Nuptiale	Mendelssohn
Stella Confidente	Rossini
Au Matin Melodie	Marmautel
Ave Verum	Mozart
Marche Heroique	Masso

L. HUBERT,
Chef de Musique.

Johnson in Trouble.

A Swede named Gustavus Johnson was taken in charge on Store street last evening by Officer Hendry for having a concealed weapon in his possession. The weapon was a new revolver, which the prisoner recently purchased, and with which he is accused of threatening to do "serious bodily harm" to one Capt. Jacobsen, who, he claims, owes him part of the wages he earned this year while acting as mate on a sealing schooner.

The French Band This Afternoon.

Another opportunity to hear the splendid band of the French flagship Dubourdieu will be afforded this afternoon, when they will play at the Public Market, commencing at 3 o'clock. Mayor Beaven has duly advertised the concert, so that all may be reminded of it, and, being indoors, the unpropitious weather will not interfere with the attendance. It is hoped that the kindness of Admiral Parrayon and his officers in allowing the band to give this musical treat will be rewarded by a large attendance of citizens

No Word Received Yet.

What action the Dominion Government intends taking towards putting the Albert Head quarantine station in first class shape is yet unknown, except for the bald statement made in the telegram to Premier Davie from Hon. Mr. Carling, minister of agriculture. Dr. MacNaughton Jones, Dominion quarantine officer here, has as yet received no word from Ottawa about the additional buildings and repairs that are to be made. He thinks the work will be of so extensive a nature that instead of being done in the usual way, it will be done through the Department of Public Works.

Art Union Prize Winners.

The following tickets are the lucky numbers in the prize drawings held in the Art Union stall of the Cathedral Building Bazaar:

$1.00 tickets,	won by	No. 10,	Cowichan river scene.
75c	"	No. 39,	Loch Levin "
50c	"	No. 68,	Sooke river "
25	"	No. 15,	Old Country "

The Japanese easels are included with each prize picture. Holders of winning tickets will find the prizes at 50½ Government street, rooms of the B. C. Art Association, care of Mr. R. Roskell Bayne.

Given two Months.

When the case of Jessie Peate was called in the Police Court yesterday morning, a dark skinned girl of about 15 years rose and pleaded guilty to a charge of vagrancy. She is the girl who was arrested a few days ago on the same charge, but was dismissed. Officer Smith, who made both arrests, told how he had found the prisoner at a late hour of the night wandering about the streets, and when he told her to go home she used profane language and he arrested her. The father of the girl was in court and told the judge that he could not control his child at all. The court gave the girl a mild lecture and sentenced her to two months' imprisonment, saying that it was for her own good and that he hoped she would come out a better girl and forsake her present evil course.

The Y. M. C. A. Convention.

The convention of the Y. M. C. A. resumed its sessions, Thursday morning, in the First Congregational church, Tacoma, and after devotional services, led by John L. Spears, general secretary, of Sacramento, Cal., General Hines was chosen secretary pro tem. A nominating committee was appointed, who reported officers for the convention as follows: President, Prof. H. A. Shorey, of Portland; First Vice-President, J. H. Fairbanks, of Seattle; Second Vice-President, E. E. Rosling, of Tacoma; Third Vice-President, T. M. Henderson, of Victoria; Secretary, John Boyd, of Victoria; Assistant-Secretary, F. E. Brown, of Willamette University, Salem, Or.; First Assistant-Secretary, Levi Johnson, of Port Townsend; Presiding Secretary, George H. Hines, of Portland. The nominations were confirmed. An informal report of the credentials showed that 56 delegates were present. Reports of associations were made, all indicating that substantial progress had been made during the year.

The K. of P. Meet.

The regular weekly meeting of the Far West Lodge, K. of P., was held in their rooms, last evening.

There Was No Quorum.

There was no meeting of the Trades and Labor Council last evening. The members who turned up were not sufficient in number to form a quorum, and at about 9 o'clock they closed the hall up.

A Short Meeting.

Only six members of the Moral Reform Association turned up, last evening, at the meeting held in the Y.M.C.A. parlors. Their discussion was unusually brief, and the meeting adjourned shortly after 9 o'clock.

Not the Same.

"Benjamin Harrison" and "J. R. Rusk" were passengers from the Sound, last evening. There was no band at the boat to meet them, because they, President Harrison and Secretary Rusk, are four separate and distinct individuals.

Will Play at the Market.

By special request of the citizens of Victoria and kind permission of Admiral Parrayon, the magnificent band of the Dubourdieu will play at the new market building this afternoon, the programme being as below:—

Chant de Victoire Marche	Leroux
Ouverture de la Norma	Bellini
Dolores Grande Valse	Waldteufel
Selection sur le Pre aux Cleres	Herold
Menuet de l'Arlesienne	Bizet
Menuet du 5m Quintetti	Boccherini
Marche Turque	Mozart

L. HUBERT,
Chef de Musique.

Assisting the Quarantine Officer.

General Superintendent H. Abbott of the Pacific Division of the C. P. R., has written a letter to Dr. Macnaughton Jones, Dominion Quarantine Officer, making the suggestion that, in order to prevent the introduction of any infectious or contagious disease from the Orient, all the steerage passengers arriving on the C. P. R. steamers should be quarantined for 14 days on their arrival, whether there is any disease among them or not. He also suggests that all steerage baggage be fumigated. Dr. Jones has replied that without special instructions from Ottawa, he will be unable to comply with the request. He suggests, however, that Mr. Abbott should take the matter up with the Ottawa authorities.

To Continue Broad Street.

On the City Hall bulletin board Ald. Hall displays the appended motion, which he will introduce at the next regular meeting of the city aldermen:

"Resolved that in the opinion of the Council it is desirable under the authority of By-Law No. 190, entitled 'A By-Law for the Assessment of Real Property Benefited by Local Improvements,' to extend Broad street, sixty feet in width from Pandora street, through lot 1252, block T, to Cormorant street; and that the City Engineer and City Assessor be hereby requested to report at an early day thereon, so that the property may be expropriated and an assessment levied upon the property immediately benefited by the proposed improvement or otherwise."

Visited a Third Time.

At 7:30 o'clock last evening the fire department in response to a call sent in through box 23 attended a fire which broke out in Falconer's Vinegar Works, Yates street. On locating the flames, the chemical was brought into service and it was not long before the fire, which originated from a defective part of the furnace, was extinguished. The damage will not exceed $10, for which Mr. Falconer gives thanks. He has been somewhat unfortunate since occupying his present quarters, fire having visited him three times. Had it not been for the promptitude of the brigade, last evening's visitation would have been serious as a number of barrels of alcohol and inflammable chemicals were in the path of the fire. The proprietor of the establishment carries no insurance.

Brought Back the Corpse.

Sergeant Langley and Officer McNeill, of the Provincial Police, returned last evening from Otter Point, where, they were informed by wire, a man named Fitzsimmons had been found dead. They brought the body back to the city with them, and an inquest will in all probability be held, although all the circumstances seem to point clearly to heart disease as the cause of death. Fitzsimmons, whose wife left him in this city some months ago, was employed on his farm by Mr. Ed. Shields, who lives not more than a mile and a half from the Point. Three nights ago Fitzsimmons bade the family good night, and singing as he went, started for the barn, in which he had his sleeping quarters. The next morning when Mr. Shields' uncle, Mr. John Charles, went to rouse him, he found the lifeless body. The deceased had been taking medicine prescribed for heart disease and dispensed by a local druggist.

Keep Your Eye on Godey's.

There is every indication that Godey's Magazine for October, ready September 15th, will mark an era in periodical literature. This will no longer be known as Godey's Lady's Book, but Godey's America's First Magazine, Established 1830. In the first place, the magnificent work of art "Godey's idea of the 'World's Fair,'" which is to be presented to every purchaser of this number, is said to be so beautiful and artistic in design and coloring that everyone will want it. It is a faithful reproduction of one of W. Granville Smith's latest and greatest pictures, produced expressly for Godey's. The publishers guarantee that the magazine itself will be filled with surprises and beauties from cover to cover. First in the contents comes John Habberton's complete novel "Honey and Gall," a companion to "Helen's Babies," fully illustrated by Albert B. Wenzell. This is an idea first conceived by Godey's and now produced with brilliant success. Godey's fashions will be a most conspicuous and beautiful feature of the publication, there being, in addition to carefully edited descriptions and fashion articles, four exquisite plates produced in ten colors, and representing four of the leaders of New York society, attired in the latest Paris costumes. Mrs. Henry Ward Beecher's "Home" department will be read by the women of America with delight, and all the Magazine's old admirers will read with interest Albert H. Hardy's carefully written article on "Godey's, Past and Present." Among the choice verses is the latest poem written by the late Josephine Pollard. John Habberton reviews all the books, and the whole forms such a rich literary feast that to examine a number of the new Godey's will mean to irresistibly desire it.

"Clear Havana Cigars"

"La Cadena" and "La Flora." Insist upon having these brands. *

The Third Day's Events Came Off Under the Most Unfavorable Climatic Conditions.

Big Crowds in Attendance—Results of the Races so Far as Concluded.

(Special to the COLONIST.)

WESTMINSTER, Sept. 23.—The third day of Westminster's show opened under sunny skies, temporarily dispelling the gloom of the long-suffering directors, who at once prepared for an anticipated great rush at the gates. The rush came. The trains and trams were densely packed with people every half hour during the afternoon. In the morning the bicycle and sprinting races were keenly enjoyed by the early arrivals, and in the afternoon Vancouver was nearly emptied of humanity. The Terminal City citizens keenly enjoy a horse race, under favorable auspices, and they attended in crowds. Owing to the heavy track, slow time was made in all the racing events. In the cycling, Vancouver's Potter again carried everything before him, as the following results will show:

One mile pneumatic handicap—Potter first, scratch; Noot second, 275 yards; Philp third.

Five mile race—Potter first, scratch; Philp, second, 100 yards; Martin and Noot, 275 yards. Noot, of Westminster, a very promising young rider, made the pace for the others. His plucky race would have probably landed him in the second place had he not fallen from his wheel at a critical juncture. Time, 19 minutes.

Two miles, pneumatic tire—Potter first, Philp second. Time, 7 minutes.

The half mile obstacle race was won easily by Potter. Potter is not a fast rider, but he has enough trophies to start a junk shop, and holds the championship with Laurenson for the Terminal city against the province.

In the sprinting, Blain, of Victoria, had the short events easy. In sprinting, Victoria leads. It seems an easy matter to send over a man at any time to capture these events from us.

All the interest was centred in the one hundred yard dash. The men got away in a bunch, Blain running steadily and strong, forging gradually ahead, his breast touching the tape first, in the excellent time (considering the track) of 10 4-5 seconds. To everybody's surprise, Charlie Stewart beat Dave Smith for second place by two feet.

In the two hundred and twenty yards dash, Blain came in jogging, with Stewart again leading Smith for second place.

Four hundred and forty yards—Blain came in first, Stewart second, in 55 seconds.

Half-mile—Stewart won; Lucas second. Time—2:22½.

One mile—Hillier won very easily; Locksley Lucas second; Ackerman third. Time—4:52.

Band race, each contestant playing his own instrument while running—Turnbull first, Peele second.

The horse races began in the sunshine, before some 7,000 people. There was a good deal of jockeying at the score post. Horse owners did not want to start their horses on the heavy track and things dragged a little monotonously. The crowd muttered audibly, while Jupiter Pluvius, refusing to wait any longer, pushed the clouds back again, unscrewed Heaven's hydrant and turned a cold spray on the impatient people, increasing it gradually to the same old pouring rain of yesterday and the day before yesterday.

In the three minute race, trotting and pacing, the first heat was won by Vancouver Dan, whose staying powers stood him in good stead on the heavy track. Primero led under the wire, but was set back second for running; Kittie, Chestnut Sam and Traveller Wilkes distanced; J. J. W. a good third; time, 2:55. The second heat was also captured by Vancouver Dan, who won from J. J. W. by a nose; time, 2:54¼. In the third heat Primero again galloped under the wire in the lead of Vancouver Dan, but the race and heat was given to the latter horse, Primero second; time, 2:55. Some of the spectators thought the race was fixed, but they must take into consideration the wretched, muddy condition of the track, and make big allowances in deciding such a touchy question.

In the tilting bout, Jordan captured three and Somers two rings, the former winning.

The half-mile and repeat brought out the following string: Frank Campbell's Jim Murphy, Hayes' Ripton, and Joe Pain's Shamrock. Jim Murphy could not run a little bit in the mud up to his fetlocks. In the first half it was Shamrock, Murphy, Ripton; 55 sec. First repeat: Ripton, Murphy, Shamrock; 54 4-5 sec. Second repeat: Ripton, Shamrock; 55 sec.

Lady riders—Two entries, Miss Dockerel, Port Moody; Miss Wilkie, Langley. The ladies were so evenly matched in skill and graceful carriage that the judges were at a loss how to decide between them. The award of merit was finally given to Miss Dockerel, on the grounds that she rode the most suitable horse for a lady.

Other minor events followed, when the rain became too monotonous, and the crowd began to rapidly disperse. The other events were consequently postponed until Saturday, when it is thought that the race track may be in better condition.

IN THE DIVISIONAL COURT.

(Before Chief Justice Sir M. B. Begbie and Mr. Justice Drake.)

At the opening of the Court, Hon. C. E. Pooley, Q.C., presented Mr. Robert Cassidy as having been admitted by the Law Society to practice as a barrister in British Columbia.

Foley v. Webster—Appeal from order of Mr. Justice Walkem, of 6th inst. Mr. Robert Cassidy for the appeal; Mr. A. E. McPhillips, contra.

The Court dismissed the motion without costs. A fuller report will be published in the COLONIST.

Truth Will Prevail.

DEAR SIR,—I have been afflicted with chronic rheumatism for several years, and have used numerous patent medicines without success. But by using six bottles of Burdock Blood Bitters I was entirely cured.

SARAH MARSHALL,
King St., Kingston, Ont.

NOTE.—I am acquainted with the above named lady, and can certify to the correctness of this statement.

HENRY WADE,
Druggist, Kingston, Ont.

"Our townspeople who intend visiting the Tacoma Exposition are cordially invited by the Helvetia Milk Condensing Co. to make themselves perfectly at home, around their Exhibit, which will be very attractive this year. They will have a score of young ladies serving coffee, with the Highland Brand Evaporated Cream." *

FALL OPENING

SPENCER'S ARCADE.

Thursday, Sept. 15th and Following Days.

We respectfully invite an inspection of our Paris, London, New York and San Francisco

PATTERN HATS & BONNETS.

Latest Parisian Novelties and Untrimmed Goods, personally selected by Mr. Spencer and Miss Shannon.

VANCOUVERS ARE COMING

To Play Lacrosse Here Next Thursday—Yacht Race To-Day for Club Championship.

Corbett Styles Mitchell a Bluffer and Bully, and is Ready to Meet Him.

LACROSSE.

VANCOUVER TO COME OVER.

VANCOUVER, Sept. 23.—(Special.)—Lovers of lacrosse at the capital will be glad to learn that the Vancouver senior team have decided to play the Victoria seniors at Victoria on Thursday next. Great interest will be taken in the match here, as the Victorias play a terrific game on their own grounds, and the Vancouver team would be anxious to show their superiority by again defeating the Capital boys at Victoria.

ATHLETICS.

THE MEETING POSTPONED.

Owing to there not being a sufficient number of members present to form a quorum, the meeting of directors of the James Bay Athletic Association, which was to have taken place on Thursday evening, was postponed until a later date.

YACHTING.

FOR THE CLUB CHAMPIONSHIP.

The first race of the Victoria Yacht club will be started at 1:30 this afternoon from an imaginary line drawn between the lighthouse and the Outer wharf, the entries being the Petrel, Scout, Scud, Viking, Wasp and Ada. The course is from the imaginary line to the San Pedro at Brotchie ledge; leaving the wreck to starboard, thence to a stakeboat anchored off the end of the spit at the lagoon, leaving the stakeboat to port (stakeboat to display a white flag upon a mast not less than ten feet high) thence to the San Pedro, leaving her to port, and thence to the starting point.

THE WHEEL.

CIRCLING THE GLOBE ON A COLUMBIA.

TACOMA, Sept. 22.—Frank J. Lenz, a special correspondent of Outing, is now on his way to Portland direct from Spokane on his trip around the world on his bicycle. He left New York on June 4, having already travelled nearly 5,000 miles. His route was along the Hudson river to Albany, thence to Buffalo and along the Canadian border to Detroit. Up to this point the roads were good, but after leaving Detroit he had to walk for many miles. Between St. Paul and Dakota he made excellent time. He got through the "bad lands" all right, and spent two days at Helena. Between Hope and Grizzly the ride was a terribly rough one. From the latter point to Spokane, a distance of 51 miles, was made in eight hours. He left Spokane on Saturday last. Mr. Lenz expects to sail from San Francisco for Japan on October 15. He will devote the winter to travelling through Asia and India, and the following Spring to Persia, Turkey and Europe, returning to America in the Fall of 1893, so as to attend the World's Fair. The daring traveller is in excellent health and spirits.

THE RING.

MITCHELL WILL MEET HIS MATCH.

NEW YORK, Sept. 22.—If Charley Mitchell, the sprinter pugilist of England, is really desirous of fighting Jim Corbett he can be accommodated. Corbett cherishes no love for Mitchell, and he says it will afford him infinite pleasure to punch the Britisher down and out. The champion yesterday was hard at work rehearsing his part in his play, but he stopped long enough to tell what he thought of Mitchell's challenge and forfeit of $2,500.

"To begin with," said Corbett, "Mitchell is a bluffer and a bully, who is not on the level at any stage of the game. Therefore I fear this challenge is like others which have emanated from him, full of wind and bluff, and only an advertising scheme. I sincerely hope, however, that the wily fakir is in earnest this time, so that I can get a chance to show him up and give him what he deserves—a mighty good licking.

"Of all the boxers in the world to-day Mitchell is the most contemptible. He is a common barroom thug who fights through the papers and not in the ring, but if he sets his feet on American soil he will have to make a match with me or return to England in a hurry branded as a coward. I will make him post a forfeit of $5,000 with any responsible newspaper man in New York and force him to sign articles to fight me as soon as my arrangements terminate. My reason for asking Mitchell to post a forfeit is to make sure of getting a fight with him."

LONGING FOR FAME.

ELMIRA, N.Y., Sept. 22.—J. L. Chilson, of Towanda, Pa., issued a challenge yesterday to James J. Corbett to fight to a finish for $10,000 a side. Chilson weighs 187 pounds and is six feet tall.

NORTH THOMPSON COAL.

The Development of the New Coal Fields Will be Undertaken Immediately

And Their Coal Will be Placed on a Waiting Market Early in the Spring.

During the past six months much has been said and written about the recently prospected coal mines of the North Thompson. They comprise about 1,800 acres, in four parcels, and are situated on Newhykwalston Creek, an easterly tributary of the river. The coal has been proven of excellent quality by assay, and the C. P. R., through Superintendent Marpole, have contracted to purchase an unlimited quantity, the standard of course being retained, as soon as the product of the mine is placed upon the market.

This will be in the near future, for the Kamloops Coal Company, recently incorporated, are finding ready purchasers for their stock, and Mr. J. S. Laurence, one of the chief promoters, who is now in this city, expects that the development of the property will be commenced in time for shipments to be made with the opening of navigation next spring.

The company, who have every reason to be satisfied with the apparent value of their mines, have prospected the deposits thoroughly during the past six months. The coal cropping or exposure is in the creek bank upon the Indian reserve, at a point about one mile from the river, and about four hundred feet from the westerly boundary of the property. The measures dip S. 60° E., at an angle of 23°. The coal is bituminous, carries 62 per cent. of fixed carbon, and makes 70 per cent. of good, strong coke. It is an excellent steam and blacksmith coal, as the attached analysis by Mr. W. Pellew Harvey shows:

	Per Cent.
Hygroscopic water	1.33
Volatile matter	26.07
Ash	8.35
Fixed carbon	62.31
Sulphur	2.07
Total	100.16

	Per Cent.
Coke	70.69
Adhering water	1.45
Specific Gravity	1.29

The seam when visited in July showed in the face of the workings 38 inches from roof to pavement, with a four inch parting of sandy shale, and immediately next the pavement a similar sandy shale about four inches in thickness. It has been reported since by the man in charge of the work, that the seam now measures 42 inches with only the centre parting. The coal is very hard, compact and clean, can be mined with very little waste, and is constantly increasing in thickness on the dip. There is also at a distance of ten feet below this seam, another which measured four feet and showed signs of running into the upper seam at no great distance on the dip. The quality, however, is not equal to the upper seam, at the cropping, although it would prove a good useful fuel.

Throwing out one-third for waste lands, the estimated quantity of coal in the upper seam alone would be about six million tons, and the cost of delivering this coal at the mouth of the mines would, at the current prices of labor, be $1.25 per ton. A short-line tramway would carry the output to barges, which are available during seven months of the year, as a means of transportation to Kamloops, the nearest market. A railway line to share the traffic with the river is contemplated; in fact the surveys have already been made, and construction work will follow very closely upon the opening of the mine.

The timber upon the property is suitable for mining operations and conveniently placed, and the water of the creek with a very light expenditure can be utilized in the generation of electricity for lighting the mines and the town which must naturally be created by their operation and development. The portions of the land reserved for townsite and dock purposes are all that could be desired, and—in fact the company are quite well satisfied with what Dame Nature has done on and under every square foot of the tract. It is waiting only development, and the work of placing its black treasure on the market is as much facilitated as it well can be by the location of forest, river and stream.

An expenditure of only $38,250 is estimated as necessary before returns can be looked for, and so the company have no fear of being unable to procure the necessary capital to push the good work forward at once.

THE "COLONIST" AND HENRY GEORGE.

TO THE EDITOR:—In your article of the 15th, on a "Dead Organ," you take occasion to treat as dishonest all who accept the teachings of Henry George. Your attitude towards single-taxers reminds me of the early days of Mr. George's struggle against the class hatreds of landholders and rackrenters. When the landholders of England discovered that the publication of Progress and Poverty was an attack upon their cherished privileges as a class, the cry which you now raise was their battle cry, and the boldest among their number, the Duke of Argyle, opened fire upon the Prophet of San Francisco, and invoked the aid of the moral law to prove that Mr. George was the "greatest preacher of unrighteousness the world had ever seen." It is too late in the day to raise the cry of "robbery." Reason vanquished the Duke, and even the COLONIST must succumb before the onward march of the greatest of all reforms. Your contention that Mr. George "would deprive every landholder, both small and great, of his property," is certainly refuted by its own evident absurdity since all men must have land and live upon it and from it. It is this fact that makes the ownership of land the most powerful instrument of oppression and extortion that can be used by one man to enslave another. Give a man absolute ownership of land and by that concession he is able to dictate the terms upon which land shall be used. The owner at once becomes the "robber," and the "user" the victim of a stupendous crime against his liberty and life.

But such an assumption is not to be allowed. In English law there is no such thing as an absolute right to property in land. Every student is aware of that fact when he takes up his "Williams on Real Property" or his "Blackstone."

Your charge that "Robbery—plain, bold, undisguised robbery—is at the bottom of Henry George's theory," is best answered in that gentleman's own words. I quote from his reply to the Duke of Argyle. The Duke, like yourself, charged him with robbery. "As to what constitutes robbery, it is, we will both agree, the taking or withholding from one another of that which rightfully belongs to him." That which rightfully belongs to him, be it observed, not that which legally belongs to him. As to what extent human law may create rights is beside this discussion, for what I propose is to change, not to violate human law. Such change, the Duke declares, would be unrighteous. He thus appeals to that moral law which is before and above all human laws, and by which all human laws are to be judged: "Let me insist upon that point. Landholders must elect to try their case either by moral law or by human law. If they say that land is rightfully property because made so by human law, they cannot charge those who would change that law with advocating robbery. But if they charge that such change in human law would be robbery, then they must show that land is rightfully property irrespective of human law." The quotation is in full. When you have answered it to the satisfaction of the Public, you may then, with a good grace, again raise the cry of "robbery."

Single tax men do not, with yourself, regard the death of the Standard as an indication of the approaching dissolution of the movement. If you have read the last number of that paper, you will discover that the people most interested consider that the Standard has fulfilled its mission. When it made its appearance six years ago it was the only exponent of single tax principles published in the world, and was merely the organ of a local expression of single tax enthusiasm in the city of New York. The single tax movement now numbers among its exponents in the press some of the most influential daily papers in the United States and Canada. Innumerable weeklies and monthlies are proclaiming the gospel of the equal rights of all men to the bounties of the Creator. Ministers of the Gospel see in it the only means of changing unjust social conditions which are a reproach to a civilization calling itself Christian, and from fifteen hundred pulpits in Great Britain and America the cry has gone forth that all men are the children of one common Father. The strongest political party in Great Britain is pledged to the underlying principle of the movement by its Leeds programme. And now, when you expect to persuade your readers to believe that the movement is about to collapse, we have to record the crowning triumph of single tax propaganda in the victory in the Courts of the United States of the town commissioners of Hyattsville, in the State of Maryland, which furnishes the world with the first instance of a town governed by single tax principles, excepting in regard to Federal taxation. No, sir, single tax men are full of hope for the future. We believe in the ultimate success of our cause. At least we will work for it.

THOS. HOWELL,
President Victoria Single Tax Club.

THE BISHOP'S COADJUTOR.

TO THE EDITOR:—The representative in England of the Columbia Mission comes forth to take to task the Anglican Synod of the diocese of British Columbia—grievance, our throwing out the canons for a coadjutor bishop. It may be that the writer is only a new comer in the diocese; that only lately have I had a seat on the body in question, but withal I am aware of what passed at the last Synod, which the representative in England—from his letter—is not. Thus it will perhaps startle him to learn that the Lord Bishop said from the chair that the whole three canons then brought forward should together stand or fall—one alone would be useless—and upon this on the second day the Bishop's own followers voted for the rejection of the clause authorizing the appointment when necessary.

If the Bishop wanted a coadjutor he could have had one without the Synod's leave at all. The fancy (which underlies the Home representative's letter), namely, that the Synod can forbid the Bishop a coadjutor, is too hollow to waste breath on; and not only has the Bishop the right, but there is the power also. How many of the returned Colonial Bishops now in England would, if asked, have said no to coming for a time to British Columbia? This being so, is it wonderful that the Synod mistrusted a roundabout and needless way of doing the matter, and deemed there was something behind? Wherefore was the Bishop going out of his way?

A diocese cannot be kept from action by a lot of apple-pie canons. So the Synod thought and did. The Bishop was as well off as before—his rights and powers untouched. Within a month, if he had wished, he could have had some brother bishop from home as a helper. Why did not our representative bestir himself to find one who was ready, instead of writing his fault-finding letter? Whence and whither is all this storm in a teacup? After seventeen years of service as Dean of the Cathedral, the Rev. Edward Cridge, through a misunderstanding with the Bishop, was turned out of his living. *That misunderstanding arose from the late Dean's deep-rooted objection to a Synod.* Seventeen years afterwards the Bishop—who started a Synod (so-called) notwithstanding—beaten upon a vote in the Synod incorporate, yields up his see. Why? Because the Synod—as was well foreseen and truly foretold—had a mind of its own.

P. A. VIDLER,
Third Lay Representative, St. Barnabas, Spring Ridge.

Spring Ridge, Victoria, B.C.,
September 22, 1892.

THAT PARK GOAT.

TO THE EDITOR:—One would think from a paragraph contained in Thursday's COLONIST that "A Citizen" was laboring under the delusion that the summit of Mount Ararat had been reached at last and an Angora goat had been rescued from Noah's Ark for the sole purpose of presenting it to the Park committee as the only member of the above species in existence. For the information of "A Citizen" I would suggest that there are a few other Angora goats on this terrestral sphere, and the one referred to as fenced in in a lot near the public school is an importation from San Francisco, and not as we would be led to believe a recent inhabitant of that frigid region supposed to contain the Ark of Noah; neither has he ever been a part or parcel of the Park menagerie, except perhaps as an occasional attraction when his young master tires of driving on the streets and takes him to Beacon Hill to try and lower Nancy Hanks record.

AN ADMIRER OF HIS GOATSHIP.

What It Will Do for You.

Are you languid, morose or irritable?
Use Paine's Celery Compound and you will become bright, happy and good-natured.
Are you overworked, tired and weary?
Try a bottle of Nature's strengthener—Paine's Celery Compound, and note well the grand change.
Are you burdened with dyspepsia and indigestion?
Seek at once that fount of health—Paine's Celery Compound and your burden will be taken away.
Are you seeking repose and sleep at night?
You can obtain sweet sleep and perfect rest by using Paine's Celery Compound. It will quickly subdue all nervousness and banish insomnia.
Have your cheeks become pale and sallow?
Go at once to your druggist and ask him for Paine's Celery Compound. This wonderful preparation will soon bring back the blush of health.

Jewish New Year Cards for sale by T. N. Hibben & Co.

THAT ANGORA GOAT.

City Authorities Know Nothing About it, But will Investigate.

The letter of "Citizen" regarding the disappearance of an Angora goat at one time owned by the city and located in Beacon Hill Park has caused considerable comment. One person has even gone so far as to question the identity of the goat mentioned in the letter—his communication appears elsewhere. Desiring to know how the city authorities regard the matter, a COLONIST reporter yesterday interviewed a number of the officials with regard to their knowledge and opinion of it, and the following are the results:

His Worship the Mayor: I did not know there was a goat.

Ald. Hall: Don't care to express any opinion. You should see the Park Committee. As a member of the Finance committee, I am positive that no money has been received from the sale of a goat. It was a shame to dispose of it in any way.

Ald. Bragg: Read about the goat, but know nothing about it officially. I have not endorsed any disposal of the animal, and would not do so. I will give the matter my earnest attention.

Ald. Hunter: Don't know anything about the goat. Am chairman of the Park committee, and think that goat must have been before my time. You should see Ald. Munn, I think. Where is the goat now, and is the man who wrote the letter sure about its being the same one?

Ald. Styles: Remember the goat but don't know where it now is. I will investigate the affair this evening and let you know what I find out. As a member of the Park committee I should have known all about it, but the matter has never been reported to me. I regard the affair as of great importance and will give it my immediate official attention.

Clerk of Municipal Council Dowler: Have handled no documents relative to the transfer of any goat, "Angory" or good tempered.

These are all that could be found yesterday, but further returns will be given as they come in, and in time it is hoped that the mystery surrounding the disappearance and return to the light of day of the animal in question will be rendered clear. The goat was presented to the city some months ago, and for some time wandered about the park "monarch, etc.," until one day he was missing and the question now raised by "Citizen" is wherefore the intense Muchness of the Which, and the exceeding Whyness of the Wherefore.

No. 170.]

A BY-LAW

To provide for the assessment of Real Property benefited by Local Improvements.

WHEREAS it is provided in the Municipal Act of 1892 that the Council of a city municipality may pass by-laws for assessing real property benefited by certain classes of local improvements;

And whereas it is expedient that the provisions of said Act in respect to such local improvements should be applied to the city of Victoria:

Therefore, the Municipal Council of the Corporation of the said city enacts as follows:

1. The cost of constructing the works and improvements mentioned in section 273 of the Municipal Act 1892 and the subsections thereof shall be assessed, levied and collected by means of a special rate for local improvements upon the real property benefited thereby.

2. The said Municipal Council may by resolution determine and specify what work or improvements it is desirable to have carried out.

3. On the passage of such resolution, and after it shall have been entered in the minutes of the Council, copies thereof shall be transmitted by the Clerk to the City Engineer and City Assessor.

4. On the receipt by the City Engineer of a copy of the said resolution, it shall be his duty to proceed at once to ascertain the said works or improvements and to make, and certify as correct, a plan and description thereof, and to make an estimate of the expenses or cost thereof, and to ascertain, determine and show on said plan what real property will be immediately benefited by the proposed improvements, and the City Engineer and City Assessor shall after such plan has been made, and certified, conjointly ascertain and determine the proportions in which the assessment is to be made on the various portions of the real property so benefited, and shall make a joint report of all such matters to the said Council, which report, when approved of and adopted by the said Council, shall be entered by the City Clerk in a book to be kept for that purpose, to be called the "Local Improvement Book," and a copy of the plan aforesaid shall be made by the said Engineer and filed in the office of the City Clerk.

5. The said report of the City Engineer and Assessor shall state:

(*a*) What real property will be immediately benefited by the proposed improvements.

(*b*) The probable lifetime of the improvements.

(*c*) An estimate of the probable cost of the proposed improvements and the amount thereof which will be assessed against the property immediately benefited.

(*d*) The proportions in which the assessment is to be made on the various portions of the real property so benefited.

6. It shall be the duty of the Sanitary or Sewerage Engineer, when so authorized by a resolution of the Council to perform the duties set forth in this by-law as being required of the City Engineer.

7. In ascertaining and determining the cost of laying, making, enlarging, or constructing or prolonging any common sewer, the said City Engineer and Assessor shall estimate the cost of the construction of branch sewers to the line of the street and include the cost of such branch sewers in estimating the assessment for such sewers, or common sewers and reporting to the Council thereon.

8. In any case where in order to afford an outlet for the sewerage and drainage of real property other than that fronting or abutting upon a street in which a sewer is or is proposed to be hereafter constructed such sewer shall be constructed of a larger capacity than that which is, in the opinion of the said City Engineer and Assessor, required for the efficient sewerage and drainage of the real property fronting or abutting upon the street, then and in every case the said City Engineer and Assessor shall estimate, determine and report to the Council what amount of special assessment should in their opinion be imposed on the other real property benefited by the construction of such sewer or drain.

9. When a vacant space intervenes between the line of a street and a building into which or under which a sewer pipe is to be taken, the said City Engineer and Assessor shall ascertain, estimate, determine and report as aforesaid the cost of laying the sewer pipe across such vacant space and under such building, and shall assess the cost of the same against such real property so to be connected with such sewer.

10. In all cases where a main sewer is or shall be laid in any street or through any lot or land, the said City Engineer and Assessor shall ascertain and determine the cost per foot frontage of such main sewer upon the lots (except corner lots) on each side of the portion of the said street or on the lands on each side of said sewer in which or through which the said sewer shall from time to time be laid. In case any of such lots are corner lots, the assessment shall be one-half the said rates, and the said engineer and assessor shall so report.

11. When the Local Improvement shall consist of the opening, widening, prolonging, constructing, or altering macadamizing, grading, levelling, paving, or planking any street, lane, alley, public way or place or any sidewalk, or any bridge forming part of a highway therein, or curbing, sodding, planting any street, lane, alley, square or other public place, or reconstructing or constructing any work by statute provided for, the said City Engineer and Assessor shall, except as provided for in section 11 of this By-Law, ascertain and determine the cost of such improvement or work per foot fronting of all real property fronting or abutting upon the street or place wherein or whereon such improvement or work is proposed to be made or done.

12. In case when it is the duty of the Engineer and Assessor to ascertain and determine the proportion of assessment for local improvements, works and services on corner lots, triangular or other irregular shaped pieces of land situated at the intersections or junctions of streets, the said Engineer and Assessor shall recommend what in their opinion would be an equitable mode of assessment, by having due regard to the situation, value and superficial area of such lots as compared with adjoining lots and pieces of land accessible for such improvements, works and services, and may charge or assess the amount of any allowance made on any such lot or piece of land or the other real property fronting on the improvements or assume the same as a portion of the municipality's share of the improvements as may seem equitable and just.

13. In ascertaining and determining the assessment to be made on lands on either side of a street, lane or alley, which are from any cause unfit for building purposes as compared with the building lots fronting on said street, lane or alley, the said Engineer and Assessor shall, in all cases, determine in what proportion the assessment for any local improvement shall be borne by the lands on each side of such street, lane or alley.

14. When the local improvement shall consist of the construction or repair of any bridge or culvert on any street, lane or alley for the opening up or extending of any street, lane or alley for the more immediate convenience or benefit of any locality, and if from any cause it shall seem to the said Engineer and Assessor inequitable to charge the whole of the cost of improvement on the lands fronting thereon the said Engineer and Assessor shall report and recommend as to what lands are benefited by such works or improvements and the proportion in which the cost thereof shall be assessed against the land so benefited.

15. As soon as the report of the City Engineer and Assessor shall have been received and the report of any amendment thereof shall have been adopted by the Council and entered by the Clerk in the Local Improvement Book as aforesaid, the Clerk shall, save as provided in the following section, cause the said report or a necessary part thereof, or any other sufficient notice describing the nature of the proposed improvement and the assessment proposed to be levied therefor, to be inserted in at least one newspaper published in the municipality for a period of fifteen days.

16. No such published notice as aforesaid shall be given when the proposed improvement consists of the construction of branch sewers to connect any real property with a common sewer, or connecting any building with a branch sewer, or making necessary house or building connections with such sewer, or of laying a sewer pipe across any vacant space and under any building when such vacant space intervenes between a line of a street and such building. In all such cases the cost of the same shall be payable and paid by the owner of such real property so connected with the sewer, and shall be a charge upon such real property, and if any damage be done to this portion of the sewer or its connections or its fittings either by neglect or otherwise, the cost of the same shall be paid by the owner of the real property, and shall be charged as aforesaid, whenever the Council authorize and have made the repairs to the same.

17. If within such period of fifteen days, as aforesaid, any petition is presented against any improvement or assessment of which notice has been duly advertised, as provided, it shall be the duty of the Assessor to ascertain and finally determine in accordance with Sub-section 20, of Section 273, of the Municipal Act, 1892, and report to the council whether the said petition is signed by a majority of the owners of such real property, representing at least one-half in value of said real property and to certify his finding upon the said petition, and to report the same to the Council.

18. Should such petition as aforesaid not be presented to the Council, or should the Assessor certify on any petition that may have been presented that said petition is not signed by a majority of the owners of such real property as may be affected by the proposed improvements, and representing one-half in value of such property, then and in each case the Council shall proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

19. Section 4 of the Street By-Law is hereby amended by striking out the words "graded constructed" in the first line thereof.

20 Any by-law or by-laws containing any provision or provisions which may be, or which are inconsistent with or repugnant to the provisions of this by-law is and are hereby repealed in so far only as the same are so inconsistent or repugnant, but not otherwise so as that full force and effect shall be given to the provisions of this By-Law.

21. This By law may be cited as the "Local Improvement By-law, 1892." Passed the Municipal Council the 6th day of September, 1892. Reconsidered and finally passed the 9th day of September, 1892.

NOTICE.

The above is a true copy of a by-law passed by the Municipal Council of the City of Victoria, on the 9th day of September, A. D. 1892, and all persons are hereby required to take notice that anyone desirous of applying to have such by-law or any part thereof quashed must make his application for that purpose to the Supreme Court within one month next after the publication of this by-law in the British Columbia Gazette, or he will be too late to be heard in that behalf.

WELLINGTON J. DOWLER,
se15 C. M. C.

[No. 171.]

A BY-LAW

For the levying of a rate upon land and upon improvements.

WHEREAS, the Council are empowered by the Municipal Act 1892 to settle, impose and levy rates and taxes upon land and upon improvements within the Municipality, subject to the exemptions therein set forth; and to make, alter and repeal by-laws for raising a municipal revenue by taxes or rates upon land and upon improvements, and in each year to pass a by-law for levying a rate or rates on all the land and improvements upon the assessment roll.

Be it therefore enacted by the Council of the Corporation of the City of Victoria as follows:

1. There is hereby settled, imposed and levied, and there shall be raised and collected, an equal rate of one per cent and one-half of one per cent. upon the assessed value of all land upon the assessment roll for the year 1892 of the Corporation of the city of Victoria.

2. There is hereby settled, imposed and levied, and there shall be raised and collected, an equal rate of one per cent. and three-eighths of one per cent. upon the assessed value of all improvements upon the assessment roll for the year 1892 of the Corporation of the City of Victoria.

3. The aforesaid rates and taxes shall be due and payable to the Collector of the said Corporation at his office at the City Hall in the City of Victoria, on or before the first day of December, A. D. 1892.

4. The words "land" and "improvements" in this by-law shall have the meaning set out in Section 2 of the Municipal Act, 1892.

5. Any by-law or by-laws containing any provision or provisions which may be or which are inconsistent with or repugnant to the provisions of this by-law is and are hereby repealed in so far only as the same are so inconsistent or repugnant, but not otherwise, so as that full force and effect shall be given to the provisions of this by-law.

6. This By-law may be cited as the "Land and Improvement Rate By-law, 1892."

Passed the Municipal Council the 7th day of September, 1892.

Reconsidered and finally passed the 9th day of September, 1892.

(No. 172.)

A BY-LAW

Respecting the expenditure of the Municipal Revenue for the year 1892.

WHEREAS it is expedient to provide an additional sum of money to meet the requirements of the Board of Health; Be it therefore enacted by the Council of the Corporation of the City of Victoria as follows:

1. In addition to the amounts authorized by the Estimates by-law, 1892, and the Supplementary Estimates By-law, 1892, for the purpose of the Board of Health; it shall be lawful to pay out of corporate funds such sums of money not, however, exceeding additionally in the aggregate the sum of thirty-five thousand dollars, as may be authorized from time to time by resolution of the Council of the Corporation for expenses in connection with the Board of Health. Provided that before making the payments the Auditor has marked his initials against the total amount of the Voucher to certify to its correctness, and that the Council have authorized the payment and that the sums paid and authorized are not in the aggregate in excess of the sums appropriated by the Council for the Service.

2. It shall, however, be lawful to pay to any person who has been employed in services connected with the Board of Health and who has been discharged or left the employ of the Corporation; such sums of money as may be due. Provided that the Chairman of the Finance Committee has certified to the correctness of the payment, and the Auditor has in each case marked his initials against the total amount of the Voucher; but the Finance Committee are to report all such payments to the Council at its first regular meeting thereafter.

3. This by-law may be cited as the Board of Health Fund By-law, 1892.

Passed the Municipal Council the 9th day of September, 1892.

Reconsidered and finally passed the 13th day of September, 1892.

DECORATING THE BUILDINGS

Everything Being Got in Readiness for the Opening of the Great Victoria Fall Fair.

Major Hornby Consents to Act as Judge of the Horses—Entries Close To-Day.

Notwithstanding yesterday's inclement weather, the gangs of men at work on the fair grounds were not allowed to relax their efforts in completing the extensive preparations necessary for the opening of the B. C. Agricultural Association's exhibition, on Tuesday morning next.

All the buildings having been cleaned up, and the sheds, etc., put in good shape, the work now being done is largely in decorating, stringing the flags, etc., and putting the exhibits in their places.

To-day will likewise be a busy day in this respect, as will also be Monday, and on Tuesday morning everything will be ready to receive the crowds of visitors expected.

Among the workmen on the grounds yesterday were the machinist and the electrician who overhauled the electric lighting plant so as to ensure a plentiful supply of the illumination which will make the buildings and grounds so attractive during the evenings.

This (Saturday) is the last day for entries to be sent in so as to be printed in the official list, although many others will doubtless come in on Monday and some even as late as Tuesday. Comparing the number of entries in the secretary's hands so far with those of last year at the same time, it has been discovered that this year's entries exceed very considerably in number those of all previous years, showing that a much wider and more universal interest is being taken in the exhibition, and that the display of goods, products, etc., will be very much more complete, while those who are giving the matter close attention say the quality is improved in even a greater proportion than the quantity. More especially is this the case with regard to the horses, live stock and poultry departments. There will be shown here next week by far the best lot of animals ever seen together in the province and it would not be going too far to say that in this respect the exhibition will be the best ever held on the Coast.

Major Hornby, of Portland, who last year gave such general satisfaction in judging the horses, has kindly consented to act again this year. It will doubtless be remembered that after the last exhibition here, this gentleman made the statement that he did not think such a fine collection of horses and stock could be seen anywhere in Oregon or Washington, and if this was the case last year, the present exhibition will surpass in this line anything of the kind ever attempted. Those who are interested in the development and progress of the important industry of horse breeding and stock raising in the province, will have an excellent opportunity of seeing the extraordinary progress made during the past few years. The number of entries in hand now shows that this will be the case, while a great many more will be in to-day and others on Monday. The complete catalogue which is now in the printers' hands will be ready for circulation on the opening day.

A petition is to be sent to His Worship, Mayor Beaven, asking him to declare Thursday next a public holiday, and should he comply with this request as is quite probable, Thursday will be declared by the directors of the exhibition a special day for school children and the Army and Navy, all the little ones, C Battery men and blue jackets being admitted to the grounds for half the regular fee.

It is understood that Mayor Beaven has already intimated that he will give his consent, and Thursday next will be immediately proclaimed a public holiday.

The exhibitors at the New Westminster show who have decided to come down here will be greatly convenienced by the fact that the Rithet will be behind her usual time, and will leave the Royal City on Saturday afternoon, so that all who are coming will have ample time to use this means of transportation. The Rithet will arrive on Sunday morning, giving plenty of time to get the exhibits in place.

TOO EXPENSIVE A LUXURY.

Abolition of the Army Headquarters of the I.O.O.F.—Meeting Place of Grand Lodge.

PORTLAND, Sept. 21.—When the present term of office of Lieut.-Gen. Underwood expires next year, the "army headquarters" of the I.O.O.F., with all the military offices above those of department of state commanders, will be abolished, and each patriarch militant branch of the order will be placed under control of the state encampment within whose jurisdiction it is located. This action was taken by the Sovereign Grand Lodge this afternoon, and was accomplished by adopting the report submitted by a special committee appointed a year ago to investigate the "army headquarters" feature of the order and suggest whether it is any longer a necessity. The committee found that the system has accomplished its mission and has become too expensive a luxury to be borne by the chevaliers. It represents taxation without representation and arbitrary power bestowed by law upon those high in authority, and court-martial without method of redress, not in harmony with the principles of Odd Fellowship, all of which have become unnecessary with the removal of the cause that called them into being, and have produced disquiet, apathy and indifference, and in some quarters have awakened strong opposition to a system of government no longer necessary. A determined demand was made for return to former conditions and relationships, and the less expensive methods given to other branches of the order, thus bringing the civil and military subordinate bodies in closer touch and sympathy with each other, and lightening the burdens that the present system necessarily entails. By "army headquarters" is meant the Lieutenant-General, his office appointees and the special committees of the Sovereign Grand Lodge appointed to aid him in his work. Its abolition will deprive the military branch of the order of much of its fuss and feathers, but will bring it closer to the non-uniformed organization. The Sovereign Grand Lodge decided on Milwaukee as the place for holding the next annual session. The vote stood: Milwaukee, 101; Chattanooga, Tenn., 56. A few scattering votes were cast for Chicago.

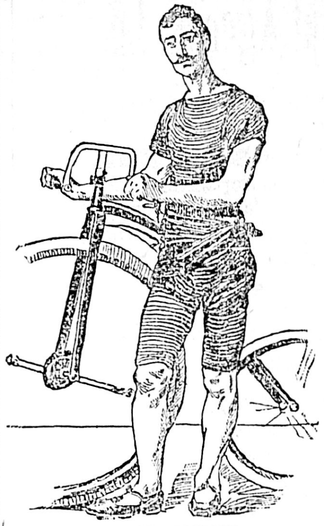
New Mantles and Capes

Just opened at The White House—The largest stock to select from we have ever had—on view this week. Henry Young & Co.

THE TWENTY-FOUR HOUR WONDER.

Shorland, the English Rider, and His Recent Remarkable Feat.

Wheelmen all over the world are talking about Frank W. Shorland, the English rider, and his recent remarkable feat in lowering the world's twenty-four hour record. He rode 413 miles in that time, a performance so far ahead of the record broken that wheelmen in general believe Shorland will remain champion for some time.



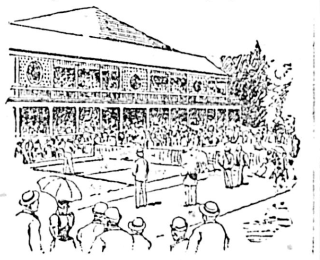
FRANK W. SHORLAND.

Not long ago F. E. Spooner, of Chicago, broke the record by riding about 375 miles in twenty-four hours, which was eleven miles better than the mark made by Frank Waller in California a few days before. Spooner's feat was considered remarkable, but Shorland's ride makes it look very slow. Shorland covered 200 miles in about 10h. 50m. and 400 miles in 23h. 14m.

Shorland is only twenty-two years of age. He has been riding since 1887, and makes a specialty of long distance contests. His wheel is a geared ordinary, which he prefers to a safety.

The Tennis Battle at Newport.

People interested in tennis all over the United States have watched with interest the play for the championship of America at Newport, R. I. The court upon which so many famous tennis players have fought for supremacy is one of the best in America. It is so surrounded by grand stands and hotel piazzas that an excellent view of the contests is obtainable.

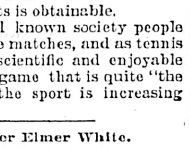


THE COURT AT NEWPORT.

Hundreds of well known society people always attend the matches, and as tennis is not only a very scientific and enjoyable game, but also a game that is quite "the thing" interest in the sport is increasing every year.

Mile Runner Elmer White.

Elmer L. White is the best mile runner in the New England states. For two years he has met all comers at the Amateur Athletic union's annual championships and defeated them. He was scratchman in the event this year, but none of the men who were favored with handicaps could defeat him. White belongs to the Suffolk Athletic club. In the few years that White has been running he has won a large number of prizes, and he now thinks of retiring from the cinder path. If he takes this step he will devote his attention in the future to bicycling.



ELMER L. WHITE.

CHECKERS AND CHESS.

Checker Problem No. 182—By W. H. Tyson.

Black—2, 4, 14, 20*.

FOR MEN ONLY.

This title does'n "go" any more, as the ladies have adopted about everything shown above, unless it be the pants. But the lords of creation are forced to plod in the beaten track, and there is little change this season in men's apparel.

The "change" is fairly rapid with us, however, as we are making a splendid drive in neckwear and furnishings this week.

COAL

The New Vancouver Coal Mining and Land Co., Ltd.

FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL. (Used principally for Gas and Domestic purposes.)

THE SOUTH FIELD COAL. (Steam Fuel.)

THE NEW WELLINGTON COAL.

(House and Steam Coal.) Are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating power, unequalled by any other Bituminous Gas Coals in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean Steamers.

SAMUEL M. ROBINS,
Superintendent.

MORTGAGE SALE.

Under and by virtue of the Power of Sale contained in a certain Indenture of Mortgage, which will be produced at the time of sale, there will be sold by George Byrnes, Auctioneer, at his auction rooms, corner Fort and Langley streets, in the City of Victoria, on Monday the 3rd day of October, 1892, at 12 o'clock noon, the following lands situate, lying and being in the City of Victoria, B. C., and described as follows:—

All that certain parcel or tract of land and premises, situate, lying and being, a portion of section thirty-two (XXXII) Esquimalt District, Vancouver Island, and which said piece or parcel of land is said to contain two and a quarter acres (2¼ ac.) more or less, and which said piece or parcel of land is the same property as was registered on the 22nd day of December, 1890, in the name of the said Frederick George Walker, in Absolute Fees Book Vol. 11, Fol. 565, No. 10171A, as being part of section thirty-two (XXXII) aforesaid, Registered in the Land Registry Office, Victoria, Also those pieces or parcels of land registered on the 22nd of December, 1890, in the name of Frederick George Walker, in Absolute Fees Book, Vol. 11, Fol. 565, No. 10170A, comprising five acres, more or less, part of section XXXII, Esquimalt District excepting that portion conveyed by the said Frederick George Walker to Beaumont Boggs, registered in Absolute Fees Book, Vol. 11 Fol. 593, No. 10241A. Comprising 1 69-100 acres.

The said land is unimproved and is most desirable residental property. It is situated within short distance from the business centre of the City and within easy access to the electric tramway.

Terms of sale.—Twenty per cent. of the purchase money to be paid to the Vendor's Solicitors at time of sale; balance in thirty days with interest at eight per cent. The conditions of sale will be made known at the time of sale. For further particulars, apply to

McPHILLIPS & WILLIAMS,

GOVERNMENT HOUSE BALL.

Lieut.-Governor and Mrs. Nelson At Home to a Large Number of Guests.

Music and Dancing Make Merry the Hours—Opening of the Social Season.

Lieut.-Governor and Mrs. Nelson were "at home" last evening, at Government House, to a large number of guests, the Army and Navy being well represented, while the "wealth and flower" of Victoria held full sway.

The spacious mansion known as Carey Castle was brilliantly illuminated, both upstairs and down-stairs, and in addition to the ball, supper, billiard and dining rooms, there were many cosy apartments free to all who wished to have a rest or a quiet chat.

The Lieut.-Governor and Mrs. Nelson received their guests in the drawing-room, and with Mr. Herbert Stanton were indefatigable throughout the evening in making each and every one have as thoroughly enjoyable a time as possible. Dancing commenced early to the excellent music of Pauline's orchestra stationed in the western end of the dancing hall. There were 20 numbers on the programme, and when God Save the Queen was played, there were still some who wished for more.

The supper was served in the large dining hall. It was simply a cold collation, exactly the thing for an occasion of the kind, and, needless to say, it was excellent.

The "At Home" last evening was practically the opening event of the winter social season of 1892. Now that the leaders have started the ball rolling, other dances and "At Homes" innumerable will follow, the next in importance being the Citizens ball, which will be given to Admiral Parrayon and the officers of the French flagship Duhourdieu on Tuesday evening.

Amongst the guests were many of the officers of the Dubourdieu, headed by Admiral Parrayon. They danced and enjoyed themselves as Frenchmen only can, and, together with the officers of the British warships now in port, were in great demand.

Last night's "At Home" will in all probability be the last event of the kind during the present gubernatorial *regime*, and it will long be remembered as an occasion of especial pleasure and enjoyment. When at an early hour this morning the guests one by one said good night they added, with one accord, "thanks for the very jolly time we've had",—and they all meant it.

INSIDE A SPIRIT MILL.

The Curious Reporter Watches the Process of Making Ghosts on Short Orders.

A Series of Old Time Tricks Done in the Old Time Way.

The citizens of Victoria were entertained last night at the Victoria Theatre by Professor Charles Slade, a gentleman who came advertised to do some wonderful things in the way of spirit manifestations. There was to be nothing of the old time trick work, but a strange something which when exhibited before various savants high up in the scientific world had completely nonplussed them.

With all this in mind a COLONIST reporter "took in the show," also a box seat, which afforded an easy access to the rear of the stage.

Notwithstanding the claim for originality and a series of tests out of the usual line, those present were astonished and somewhat bored to see the same old "cabinet" arrangement of four posts set up on the stage, the posts draped in curtains so arranged that those in front could be drawn up and lowered at the will of the assistant.

The "medium" began by making the usual statement of the impossibility of physical powers accomplishing what he was about to perform, and then the reporter grew actually tired—for there began the preparations for those old rope-tying tricks first brought into prominence by the Davenport Brothers years and years ago, and exposed and explained so many times that the repetition has become almost as stale as the tricks.

Of them but little need be said. They are simply clever sleight-of-hand performances, and have been done for years by prestidigitateurs who would laugh at any hint at spiritual aid. While they were going on, the man of pencils grew restless, and, slipping out of the box, wandered back of the scenes.

There is an old saying to the effect that "opportunity" makes one apt to lapse from the strict paths of virtue. It was true in this case, at least, for the proximity of a chair and drygoods box behind the scenes proved too great a temptation for the inquiring mind, and a pyramid was built upon which was performed an exhibition of aerial balancing which would have turned an old time circus man green with envy and would have secured an engagement to crowded houses.

Applying his eye to the crack where the scenes fit together, a plain view was had of the interior of the "ghost mill," which was uncovered to permit the "invisible hands" to pass out the musical instruments over the top, etc., etc.

This took place in time to see the professor do some clever work with his feet in handling the goods inside. Then came the interesting portion of the exhibition.

Spirits were to be shown to the audience. The assistant was placed in the cabinet, a card passed around his neck and through the side of the cabinet. This was held by one of the gentlemen who had come on the stage to see fair play. The curtain was closed, and while the lights were being lowered, the assistant with the card dangling down his back, left the gentleman to hold the dummy ends fastened to one of the posts, and proceeded to bring out from under his vest the ghostly trappings needed in the act.

These were quickly donned, and by the time the medium had finished his speech on "spirits," the spook was ready.

He walked out and rang a bell and retired.

The white garb was hurriedly drawn off and stuffed inside the vest. The curtains were then drawn and the assistant shown in the same position. The dummy card pulled through the curtain and palmed.

The test was complete.

The reporter hurried around to the box and requested Mr. Dowler, who was on the stage, to search the assistant for the concealed wraps, but before that gentleman could request this from the medium the assistant was behind the scenes and it was too late.

Of the table-tipping but little need be said. The trick is usually performed by means of hooks strapped to the wrist. After the close of the performance the professor was visited by two COLONIST men. They were being extended a cordial invitation to a private seance, when the manner in which his manifestations were worked was explained to the professor, and an admission made of the way in which the observations had been made.

The man of spirits was somewhat taken aback, but recovered himself sufficiently to say that as all his people were not with him he had been compelled to resort to trickery on this occasion only, but at another time a "genuine test" would be given.

So much for the spirits, the evolution of which the professor claims causes him such a mental strain that he can only stand a very little of it.

In another place will be seen a dispatch in which a minister of Nanaimo offers to reproduce, by ordinary means, every trick trick and "manifestation" of the medium.

CHINESE IN THE U. S.

Important Letter by the Assistant Secretary of the U. S. Treasury.

WASHINGTON, Sept. 23.—Assistant Secretary Spaulding has written a letter to the Collector of Customs at Port Townsend, Washington, in which he says: "The Department has received your letters, requesting instructions for your guidance in the case of one Chin Yu, a Chinese person, who claims to be a British subject and applies for admission to the United States. The applicant submits a certificate of naturalization issued by the County Court of New Westminster, bearing date July 8, 1892. In transmitting the case to the Department, you state that, in your opinion, these papers have been prepared with a view of making this a test case, and if this Chinese person is permitted to enter the United States, under the circumstances, I have no doubt whatever that the authorities on the other side of the boundary line will begin to manufacture citizens of British Columbia for the purpose of evading the Chinese Restriction Act of 1892." In reply, you are informed that this Department holds that the naturalization of a Chinese person by an adjacent country would not qualify such a person to enter the United States and you are instructed to decline to consider the papers mentioned as in any manner changing the status of such person, so far as his admission into the United States is concerned. The assistant secretary also encloses copy of a letter addressed to the Secretary of State on the 2nd of June last, in which the department took precisely the same position in the case of a Chinaman, naturalized in Mexico, who endeavored to enter the United States.

THE FLYER OF THE FLEET.

Steamboat Time Paralleled by the Dora Sieward in Her Run From Copper Island.

Earthquake or Volcano, It Could Not Stop Her—No Sight of the Russians.

Captain Sieward and his estimable wife may well be proud of the trim little schooner which bears the latter's name.

The Dora Sieward, Captain H. F. Sieward commanding, reached port late last night, having made the run from the Copper Island neighborhood in the wonderful time of 13 days 2 hours, which when five hours is deducted for the easting made, brings the actual time for the run across the Pacific down to 12 days and 21 hours.

The Sieward's total catch for the season is 900 skins, of which 673 were secured on the Russian side. The Geneva, which started with her from the Siberian side for a race home, has a better catch, 1,270 skins, but not quite so fleet wings—on this trip at all events. The Geneva made the record from Halifax here, her time being 108 days, and Capt. Sieward felt anxious accordingly to give her a brush. His challenge was promptly accepted, and the two schooners started on the same day and hour for the run home. The Ocean Belle, at the time of their departure, was to sail for home on September 6, according to Capt. O'Leary's announcement.

During her cruise the Sieward had an experience which very few are permitted to enjoy—if there be any enjoyment in tossing about with the water seething and boiling all round, a submarine volcanic eruption being the cause. The ebullition lasted for fully a minute, and the men were thrown about, the contents of the cabin tossed hither and thither, and the schooner pitched about like a rubber ball. She bobbed up like a cork every time, though, and sustained no serious damage from the adventure.

As the captain had his fingers burnt in 1888, he avoided all risks, and was not aware that any seizures had been made until he spoke Capt. Baker, of the C. H. Tupper.

On this, her maiden cruise, the Sieward carried a crew of Eastern men, whose work, considering that they were unacquainted with the sea, has been especially meritorious.

Forewarned Is Forearmed.

Facts, statistics, information, things useful to know, the biggest and best budget of knowledge, reliable and up to date, will be found in a new publication, "Facts and Figures," just issued by Messrs. T. Milburn & Co., Toronto, Ont. Our readers can obtain it by addressing the above firm and enclosing a three cent stamp.

Educational Work.

The work of educating the public to a thorough knowledge of the virtues of Burdock Blood Bitters as a cure for all diseases of the stomach, liver, bowels, and blood, has been completely successful. The remedy is now known and used in thousands of homes where it always gives great satisfaction.

TO DEPOSITORS.

The British Columbia Land and Investment Agency, Ld.

SUCCESSORS TO ALLSOP & MASON.

In view of the low rate of interest given by the Dominion Savings Bank Department, and the restrictions imposed as to the amount to be deposited, this Company is now prepared to receive money on deposit, in large or small amounts, at interest at the rate of 5 per cent. per annum, and on favorable terms as to notice, etc.

The offices of the Company have been removed to 40 Government street, the premises lately occupied by the Telegraph Company.

Masonic Installation Banquet.

Yesterday, Columbia Chapter, Royal Arch Masons, held their regular annual election of officers, the following being the result of the ballot: A. Stewart, 1st P.; B. S. Oddy, 2nd P.; Dr. W. A. Richardson, 3rd P.; C. E. Renouf, treasurer; E. Langley, scribe E.; J. L. Stamford, scribe N.; C. D. Mason, 1st soj.; R. H. Swinerton, 2nd soj.; H. T. Flett, 3rd soj., H. L. Salmon, I. G.; and R. Chipchapse, dir. of cer.

The regular installation banquet was given at the Balmoral in the evening. Some 35 members of the Chapter were present to enjoy the elegant repast prepared by mine host Garland. When the cloth was removed a number of toasts were made and responded to, and the remainder of the evening was spent in a thoroughly enjoyable manner.

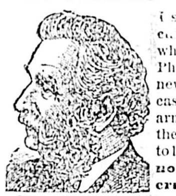
Jewish New Year Cards for sale by T. N. Hibben & Co.

Preferential Trade.

Preferential trade properly consists in giving the preference to Burdock Blood Bitters when seeking for a cure for constipation, dyspepsia, headache, biliousness, jaundice, scrofula, poisonous humors, bad blood, rheumatism or kidney complaints. It is the true cure, and has cured cases which had resisted all other treatment.

A fine assortment of Purses, Pocket Books and Wallets at T. N. Hibben & Co's.

Thousands of Dollars



Mr. S. G. Derry.

I spent trying to find a cure for Salt Rheum, which I had 13 years. Physicians said they never saw so severe a case. My legs, back and arms were covered by the humor. I was unable to lie down in bed, **could not walk without crutches**, and had to have my arms, back and legs bandaged twice a day. I began to take Hood's Sarsaparilla and soon I could see a change. The flesh became more healthy, the **sores soon healed**, the scales fell off, I was soon able to give up bandages and crutches, and a happy man I was. I had been taking

Hood's Sarsaparilla

for seven months; and since that time, 2 years, I have worn no bandages whatever and my legs and arms are sound and well." S. G. DERRY, 45 Bradford St., Providence, R. I.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, and sick headache. Try them.
